DVANCING TO ATTACK

MEXICO Braces for Conflict.

MEXICO Informs Him of Rapid Approach of Rebels and Troops.

MEXICO Troops Hurrying toward Rebel Position by Forest Marches.

MEXICO Leader Prepares Troops for Engagement This Morning.

MEXICO Leader Sends Word to the Rebels to Be on the Lookout for the Coming Attack on the Frontier.

rebel have excellent fortifications there.

Three hundred Federals under Gen. Sanjines were driven from Cozumel, about 150 miles northeast of here, by 250 rebels under Col. Gamboa, according to reports to Gen. Orozco's headquarters here tonight. The government forces abandoned two machine guns. The Federal loss was fourteen killed. The rebels reported one killed and one wounded.

FEDERALS SAY THEY DISLODGED REBELS.

BY A. P. NIGHT WIRE TO THE TIMES

EL PASO (Tex.) May 15.—Federal officials denied that the skirmish at Cozumel was an important victory. They declare the government troops dislodged the rebels with slight losses.

Reports have indicated that the insurgents under Col. Gamboa, whose movements have not been definitely established since he was sent southwest last Sunday from Cozumel, are now in the vicinity of Valderrama, southwest of Torreon. At Valderrama are located the plants of the American Smelting and Refining Company. The rebels are aiming to obtain explosives and food supplies there.

REBELS "BOTTLE UP" ARMY OF FEDERALS.

BY DIRECT WIRE TO THE TIMES

MEXICO (Mexico) May 15.—(Exclusive Dispatch.) Rebels are now in front of and behind the Federal army at Torreon. The rebels claim to have made an assault on each bank and declare that their three days to "bottle up" the Federals has been accomplished. Federals admit that Gen. Campomanes' command of 1,500 men has succeeded in reaching Valderrama, eighty-five miles southwest of Torreon, in their rear, but deny that the rebels took Mansfield and that they have a large amount of supplies there. Emilio Madero, chief of the Mexican President, stated today that the arrival of Campomanes in the rear of Torreon is giving the Federal commander concern, and that Huerta has telephoned to Mexico City for reinforcements, not that Huerta fears being captured, he says, but because he does not wish to be forced to stop to fight his way through. Huerta wants a force sent from the national capital to take care of these.

Huerta continues his march north to the coast.

Hammer and Tongs in Ohio Fight.

ROOSEVELT, Abashed, Is Not So Boisterous With Invective Just Now.

THIRD-TERMER Turns Opportunist in the Home State of the President.

CHIEF EXECUTIVE Declines to Let Up in His Digs at the Colonel.

BY DIRECT WIRE TO THE TIMES

SANDISKY (O.) May 15.—Tired, but still smiling, chaffing boyhood friends who have grown up to manhood since he left his native State to build a nation beyond the ocean and begin his career as statesman, President Taft wound up a memorable day in the city of Sandusky tonight. If to stand up before your own neighbors and talk back at a peddler hawking after your job is an ordinary task, Howard Taft did not show it. His coat was wrinkled about the sleeves and somewhat dusty; his cheeks were powdered with the dew of the doing and the talking. But the Taft smile outwore the harshness of the day. Taft's good nature came triumphantly through a tempest of tempting opportunity to say cutting things about an ex-President who was cutting up the furrows within a few of some of the stops made in the dark journey from Roosevelt to this one.

Taft was never more looth, more formal, more genial than today, and from his appearance at Sandusky his eyes were glinting with the enthusiasm and radiance shown by the people wherever he appeared.

Three times today, Taft crossed Roosevelt's path and ate by him, this the third day of his absence of Ohio. He took up the arguments of his opponent and replied to them categorically.

President made seventeen speeches, surpassing his previous record, and addressed approximately 50,000 persons, making all told during the three days, about 150,000 persons. This has been such a strenuous strain upon his voice that at Newell this afternoon he was compelled to desist while Mai Rhodes, his military aide, who is a physician, sprayed his throat.

In Oberlin the President's horse had diminished and he talked for fifteen minutes to 3,000 persons. When he requested remained as quiet as possible except when they felt impelled to cheer. He prefaced his speech at Oberlin by saying:

"My voice sounds like a crow, but does not catch an ear."

Old farmers gripped him by the hands as he turned to re-enter his car and resume the journey. One veteran voter jumped upon the step as the car was starting and insisted upon having a farewell shake.

"You are going to win, Mr. President."

"I hope so and think so."

"Of course you will win. Every President that has gone to Washington in my time I've voted for, sir. And my vote's going to you."

The President smiled and said his admirers there were the votes he wanted.

The circumstances leading up to Mr. Roosevelt's announcement that he would refrain from personalities during his Ohio tour related to an arrangement on nomination of president.

Four days ago yesterday, Roosevelt, a Puritan, agreed with a Puritan, and a Puritan agreed with another Puritan, and all would avoid the destruction of both.

A Puritan, a Puritan, a Puritan.

The circumstances leading up to the President's decision to withdraw from the campaign of personal attacks upon the President. They said that it would alienate a great many Republicans who would otherwise be for him. Mr. Roosevelt explained further that it was desirable to have a harmonious State administration and that the two factions and this result could not be accomplished if personalities were directed against the President.

Mr. Taft today put his approval on the arrangements made for his further tour. The Jersey primaries take place on May 25 and from May 25 to the eve of the balloting the President will be engaged in a whirlwind tour of the Jersey cities and counties, starting with a night appearance in Columbus and winding up on the night of May 27 at Atlantic City. More than twenty cities and towns are to be covered in separated speeches during the tour of four days.

HAMMER AND TONGS AT ROOSEVELT.

BY A. P. NIGHT WIRE TO THE TIMES

SANDISKY (O.) May 15.—President Taft will not let up in his attack on Col. Roosevelt as long as he is in the campaign for renomination.

In several short speeches he made today, Mr. Taft emphatically declared that it was not time now for Mr. Roosevelt to teach the doctrine of "no personalities."

"Mr. Roosevelt is now going about Ohio saying he will not condone his personalism with me," Mr. Taft

Auto Bandits of Paris Are Wiped Out by Dynamite.

BY DIRECT WIRE TO THE TIMES

PARIS, May 15.—The career of the last of France's notorious bandit gang was dramatically ended this morning, when after eight hours' battle with police and troops its leader, Octave Garnier, and his confederate, Vallet, were blown up by explosives in a small villa at Nogent-sur-Marne, where they had taken refuge.

Shattered by shells of dynamite, their house fell in ruins when the mine was exploded under the roof. The police found Garnier dead and Vallet dying. Five policemen were wounded in the battle.

Vallet died in the automobile which was conveying him to a Paris hospital.

Garnier and Vallet kept up a continuous fusillade with rifles from the windows of the building. A police sergeant was wounded.

Louis Lépine, the Paris Prefect of Police, with a large body of police men, left headquarters hurriedly to motor cars for the scene of the fight.

The capture and death of Bonnot, the "demon chauffeur," forms one of

the most dramatic incidents in criminal history. The bandit and an anarchist named Dubois were known to be hiding in a garage at Chilly-Mazarin. The two desperados were armed to the teeth and the house constituted a veritable arsenal. They set up a determined resistance in their fortress, which was only reduced after it had been blown up by dynamite. Two detectives were wounded in the attack, one of them seriously. When the house, which caught fire after the explosion, was entered, Dubois was found lying dead on the ground floor with three bullet wounds. Bonnot, with his left wrist broken and wounded in several places, had taken refuge in a room on the first floor, where he was hiding behind a mattress. He discharged his revolver at the police as they entered, but the bullet went wide. A moment later he himself fell beneath the bullets of the police revolvers.

Gouzy, another member of the band, was captured and dragged

through the streets by the police.

Fire Eats Long Path

Vast Area Is Facing Forest Peril.

SCORCH Wooded Region from British Columbia Almost to California.

TOWN IN WASHINGTON IS SURROUNDED AND DESTRUCTION SEEMS CERTAIN.

FIVE LIVES LOST IN SHAGIT COUNTY AND MANY HOMES WIPED OUT.

BY DIRECT WIRE TO THE TIMES

PORTLAND (Ore.) May 15.—(Exclusive Dispatch.) From British Columbia on the north almost to the California line on the south reports of increasing damage to forests and homes by fire continue to come in today.

The most serious situation exists in Snohomish county, Wash., where the town of Sultan is practically surrounded by flames and the residents are making a desperate fight to prevent its destruction against heavy odds. Its water supply has been cut off through destruction of exposed sections of wooden pipe by the flames. Only a change of wind, it is deemed, can prevent the little town's destruction.

Five lives have been lost in Skagit county, Wash., where the flames invaded and destroyed a number of logging camps. The victims were loggers.

This fire has destroyed \$3,000,000 worth of green timber.

The mill of the Burlington and British Columbia Railroad Company near Index, Wash., was burned with a loss of \$50,000. Only a change of wind saved the plant of the Oregon Lumber Company, at Index, and the town.

A railroad was burned at Orondo, a station on the Spokane, Portland and Seattle line, and a bridge over the Spokane River, owned by the Great Northern Railroad Company being the chief loss.

Several farm houses have been destroyed. Fifteen families have been rendered homeless in Deschutes County in Skagit county. Nearly all their equipment and several camp houses and outhouses have been destroyed.

The Pacific National mill was burned this morning. The mill, however, caught fire from the sparks of lumber being processed. Several cars were burned near the mill.

The Washington Forest Fire Protection Association began the work of organizing a fire crew this morning, and over 250 men have been sent to Skagit and Snohomish counties.

A serious fire is raging near North Longview, R. C. The Seymour Lumber Company's mill has been destroyed. The flames are sweeping onward before a strong wind and another large mill ten miles away is menaced.

Several loggers have lost their homes.

From Lincoln county, Oregon, comes report of a serious fire at Newport, on the coast, which has destroyed a number of small ranch houses and is feeding on green timber of which \$5,000,000 feet have been burned.

Brush fires on the upper Clackamas River, east of Oregon City, are reported tonight under control, after having caused heavy damage.

Eastern Linn and Douglas and Jackson counties, the latter two in southern Oregon, all report heavy destruction of timber, with fires still burning.

Several families in the little towns of Neacanic and Hamlet, in Clatsop county, have been rendered destitute by forest fires, which have destroyed their homes. Appeals for aid have been sent out in their behalf.

FIRES STILL BURNING AND BEYOND CONTROL.

BY A. P. NIGHT WIRE TO THE TIMES

SEATTLE, May 15.—Fire, lives known to be lost, two men missing and property damaged several hundred thousand dollars, are the result of several forest fires which swept over the northwestern part of Washington yesterday and last night. The fires are still burning uncontrollably, but in most sections the situation shows improvement and unless a wind springs up there is little fear of further disaster.

The most serious fires tonight are in Snohomish county, where several sawmills and logging camps have been destroyed, and others are in danger.

The only loss of life reported occurred in the big fire which destroyed four logging camps in Skagit county. Fifty million feet of green timber was destroyed by this fire. Other fires in Western Washington brought the total timber destroyed to 70,000,000 feet.

The fire wardens have rushed a large force of men into the field, and believe they will be able to control the flames. They were encouraged

STILL GAINING IN THE RETURNS

Vote of San Francisco Is Cast for Roosevelt.

Mr. Taft Wins the Fourth Congress District.

Spreckels Wants the Names of La Follette Men.

INT. A. P. NIGHT WIRE TO THE TIMES]

SAN FRANCISCO. May 15.—With the lead held by Roosevelt early in the day gains as late returns from yesterday's preferential primaries are received, indications to-night are such that supporters of the general believe he will approximate the 2,600,000 majority they estimated for him in the May 14 issue. At least 2,600 precincts out of a total of 3,700 give Roosevelt, 1,223,723; Taft, 52,351; La Follette, 40,221. This gives Roosevelt a majority of 22,459.

The same precincts give Clark 35,481 and Wilson 15,694.

CARRIED BY TAFT.

Now that the result is determined with the exception of increase in majority, conjecture among politicians has turned to the question of what will be the outcome of the condition presented by the fact that Taft carried the fourth Congress district by 154 votes. This district is in San Francisco.

While many expected the belief that two delegates from this district would be sent to the national convention as contestants, Philip R. Waller, vice-chairman of the Taft Republicans of the State, said tonight that he believed a contest doubtful. Now in the Roosevelt camp had given the subject a thought, it was seen.

There is direct conflict between the State primary law and the rule of the Republican National Committee regarding the selection of delegates. The State law, enacted at a special session of the Legislature last December, provides for the nomination of delegates from Congress districts and their election by the State at large, while the rule of the national committee is that delegates must be selected by Congress districts.

The Taft delegation nominated originally from the Fourth District, Morris Meyersfeld, No. 1, and M. H. Tryon, The Roosevelt delegates from the same district are Charles S. Wheeler and Philip Bancroft.

There was nothing on the ballot to indicate which of the two delegations from which came the two nominating delegations of those who were to be sent to the convention.

Mr. Spreckels, the reporter who, the returns show, cast one vote for Roosevelt, said he was sure that his ballot was for La Follette. La Follette carried the Spreckels county.

La Follette Statement.

Roosevelt Spreckels, leader of the La Follette movement in this State, issued a statement tonight, in which he said, among other things:

"This movement under the leadership of Senator La Follette, it is necessary that all those who have so valiantly supported him in his campaign for nomination for President at once cast their votes for him in the La Follette League headquarters, No. 212 First National Bank building, San Francisco, in order that a permanent organization may be perfected to carry on the fight for free speech and real progressive principles."

SACRAMENTO RETURN.

INT. A. P. NIGHT WIRE TO THE TIMES]

SACRAMENTO. May 15.—Returns from all counties in the Second Congress District with the exception of Mariposa give Roosevelt 4,444; Taft, 242; La Follette, 205; and the remaining returns indicate Taft carries Calaveras and possibly Amador and Tuolumne counties, splitting even with Roosevelt in Alpine, while Roosevelt carries the others. Also, he carries in Calaveras and Tuolumne in Amador and El Dorado, while Clark carries the others. The Third Congress District with only two precincts given Roosevelt, 1,444; Clark, 351; Wilson, 16. Results in the remaining districts in San Benito county were as follows: No. 4—Taft, 263; "4," 51; No. 5—"wet," 55; "dry," 54. Two saloons will go out of business in District No. 5, one at Del Monte, the other at San Benito. The remaining three precincts out of 102 in Monterey county: Roosevelt, 1,857; Taft, 489; La Follette, 186; Clark, 384; Wilson, 194. Returns from forty-eight precincts out of 100 in San Joaquin county: Roosevelt, 2,021; Taft, 57; La Follette, 325; Wilson, 214; Clark, 57.

SAN MATEO COUNTY.

INT. A. P. NIGHT WIRE TO THE TIMES]

SAN JOSE. May 15.—San Benito county officials give Roosevelt delegates 460; Taft, 275; La Follette, 114; Clark, 251; Wilson, 16. Results in the remaining districts in San Benito county were as follows: No. 4—Taft, 263; "4," 51; No. 5—"wet," 55; "dry," 54. Two saloons will go out of business in District No. 5, one at Del Monte, the other at San Benito. The remaining three precincts out of 102 in Monterey county: Roosevelt, 1,857; Taft, 489; La Follette, 186; Clark, 384; Wilson, 194. Returns from forty-eight precincts out of 100 in San Joaquin county: Roosevelt, 2,021; Taft, 57; La Follette, 325; Wilson, 214; Clark, 57.

SAN MATEO COUNTY.

INT. A. P. NIGHT WIRE TO THE TIMES]

SAN MATEO. May 15.—Returns from (thirty-nine out of forty-one precincts) in San Mateo county: Roosevelt, 1,844; Taft, 1129; La Follette, 385; Wilson, 184; Clark, 57. The two missing precincts will not change the returns more than twenty votes.

NOT ON THE JOB

BUT DRAWING PAY.

INT. A. P. NIGHT WIRE TO THE TIMES]

SACRAMENTO. May 15.—According to an opinion given by Atty.-Gen. Webb, constables and justices of the peace of Butte and Brighton townships when these suburbs were annexed to Sacramento last September, are not entitled to draw pay.

They have tried cases in Oak Park and East Sacramento since the suburbs were annexed, acted without legal authority. The officials who will be affected by this ruling are Atty.-Gen. Webb, F. E. McMichael and Edwin McEwan of Oak Park, formerly of Butte township, and M. T. Shelly of Riverside township, and the constables of these courts.

FIGURES BY DISTRICTS ON TUESDAY'S PRIMARIES.

(BY A. P. NIGHT WIRE TO THE TIMES)

SAN FRANCISCO. May 15.—Returns from yesterday's preferential primary received from 2,603 precincts out of 3,700 in the State up to the close of tabulation at 9 o'clock tonight, gave the following totals by Congress districts:

Dist.	Prec.	Roosevelt	Taft	La Follette	Clark	Wilson
1	309	5,900	4,628	2,763	4,461	1,046
2	505	4,454	3,463	1,904	3,750	1,266
3	272	9,675	5,863	3,164	4,497	1,092
4-5	250	19,764	16,522	5,857	9,706	2,322
6	282	18,547	10,014	5,291	2,125	857

NAME TWO SETS OF DELEGATES.

(Continued from First Page)

REPUBLICANS OF WASHINGTON HOLD DUAL CONVENTIONS.

Efforts Are Made to Bring About Compromise But the Negotiations Fall—Eleven County Unrepresented in Taft Meeting and Seven at the Roosevelt Gathering.

INT. A. P. NIGHT WIRE TO THE TIMES]

ABERDEEN (Wash.). May 15.—Roosevelt and Taft delegates will meet at Chicago for the fourteenth annual meeting of the Republicans of the State, and tonight they will be seated in the hall of the Hotel Washington.

Committee Chairman Roosevelt, who is acting chairman of the national committee, is credited with declaring that "the committee to consider the convention will be seated in the hall of the Hotel Washington.

Various interpretations are placed

on Mr. Roosevelt's views but the one generally accepted is that he favors

the convention.

Life's Scamy Side.

BURGLAR GETS GUEST'S GEMS.

Inserts Hand Through Window of Dwelling.

Army Officer Host Is Evacuated by Intrusion.

Woman Losing Jewels Figured in Divorce Suit.

The Times Winslow, Cabin, Eastern and Overland News Service.

TERRE HAUTE (Ind.) May 15—Lieut. H. D. Mitchell, U.S.A., was bending every effort today to locate the thief who reached through the window of his home and stole jewels valued at \$1000 from a dresser. The gems were the property of Mrs. Charlotte Bradway of Chicago.

Lieut. Mitchell is particularly tried because the robbery is the second that has taken place at his home while Mrs. Bradway has been his guest. On the other occasion of Mrs. Bradway's visit she lost jewels worth \$2500. This robbery was made when the officer was stationed at Monroe.

On the same dresser, near the jewels that was taken in the latest theft, were other gems owned by Mrs. Bradway, valued at \$3000. In an adjoining room, with the door wide open, there was at the time of the theft a party of bridge players, one of whom was Mrs. Bradway herself, who was a guest of Lieut. Mitchell. When a sudden gust of wind blew the cards across the floor, Lieut. Mitchell arose, closed the door and then discovered the robbery.

Mrs. Charlotte Mac Smith Bradway, daughter of J. V. Smith, who made his fortune in the lumber business as one of the early comers at Goldfield, Nev., was conspicuous a couple of years ago when she was saved William E. Bradway, finance and club man, for her. Recently she had been in Chicago at the Kenwood Hotel, but it was stated there today that she had left Dennis, Iowa.

Lieut. Harry Mitchell, whose home is at Marion, Ill., 55 years old, entered West Point at the age of 15 and became celebrated there through his work in the Young Men's Christian Association. He is credited with having placed that organization on a firm basis at the military post and it is understood he did more than any other to make it popular. He has a good military record and now active service fighting the Boxers in China.

SLOWLY BAKED TO DEATH.

Workmen Caught in Caving Earth and Stone Perishes Under Flame of Illuminating Gas.

MALDEN (Mass.) May 15—Penned in a trough by dirt and stones which caved in on him while he and a fellow worker were at work, Daniel Smith, an employee of a local gas company, was slowly baked to death by flaming illuminating gas, early today. His companion, William F. McLaughlin, was blown from the trough by an explosion and was so severely burned that he may not recover.

To keep the imprisoned man from breathing the poisoned air, a pipe from another hose was placed in his mouth and the other end run out into the clearer atmosphere. In this manner rescuers were able to keep him alive for more than an hour while they worked to extricate him. His friends were overcome by the fumes. When it became apparent that there was no hope of saving the man, Father George P. O'Connor climbed down into the trough at the risk of his life and administered the last rites for the dying.

RAIDS WORK OF FORDER.

President Taft Praises Administration of Governor-General in the Philippines Islands.

DET. A. P. DAY WIRE TO THE TIMES:

NEW YORK, May 15.—High praise is given the administration of W. Cameron Forbes, Governor-General of the Philippines Islands, by President Taft, in a letter read at a complimentary dinner given for Gov. Gen. Forbes last night by men prominent in commerce and finance.

"Nothing would give me greater pleasure than to attend the dinner of the Gov.-Gen. Forbes," I have of Gov.-Gen. Forbes' weighty contributions to the successful solution of our difficulties in the islands, it is only

partly over and out and it is only good work done more years in which a vindicate and to sit to the Philippine people to assume the responsibilities to complete self-government. We will see now, within a short time, if we are not about to change our conditions which would leave them one way done there would largely be done."

SIGNIFICANCE OF SCULPTURE.

Statue Monument of Lincoln Unveiled in Chicago to Be Presented to Boston Merchant World.

CHICAGO, May 15.—A monument to Abraham Lincoln, to be presented to the Boston Chamber of Commerce by the Chicago Association of Commerce, was unveiled at the Hotel La Salle this afternoon. The monument is a replica of one by St. Gaudens in Lincoln Park.

The work is that of George E. Geiger, Chicago sculptor, and it is half the original in Lincoln Park. As unique as today it stands upon a pedestal of marble imitating that of the pedestal of the statue on which it rests. The shaft is the "Yard of Yards" shaft in the Lincoln Park. Upon the shaft is the inscription: "The Chicago Association of Commerce, in appreciation of the services of the Boston Chamber of Commerce, June 13, 1912."

In 1909 a delegation from the Boston trade body visited Chicago. In 1911 a Chicago delegation returned the visit.

At the meeting today La Salle, Taff, and others spoke on "The Significance of Sculpture in a Greater Chicago."

Chamberlain's Colic, Chloro and Chloro Remedy is equally valuable for children and adults.—Adv.

VALUES ASCEND LIKE HYDROGEN.

Great Increases Shown by the Census Reports.

More Farms Now and All Are Worth More.

Ten Years Make a Difference in Nation's Ledger.

LET DIRECT WIRE TO THE TIMES;

WASHINGTON, May 15.—(Exclusive Dispatch.) A census Bureau agricultural report for the whole United States issued today shows the following farm statistics for California:

Total population in 1910 was 3,277,000; in 1900, an increase of 956,000; per cent, increase, 30.4.

Rural population in 1910 was 887,000; in 1900, 274,000; increase 222,000; per cent, 34.5.

Number of all farms in 1910 was 23,187; in 1900 it was 23,080; increase 1,000; per cent, 2.1.

Total land area, 99,917,000 acres.

LAND IN FARMS.

All land in farms (arable) in 1900 was 27,551,000; in 1910 it was 28,000,000; increase 449,000; per cent, 1.6.

Improved land in farms (arable) in 1900 was 12,379,000; in 1910 it was 11,582,000; increase 897,000; per cent, 6.9.

For cost of United States totals:

In 1910 it was \$1,072,000; in 1900 it was \$1,052,000; increase \$10,000; per cent, 1.0.

For cost of land in farms for the total in 1910 it was \$1,052,000; in 1900 it was \$1,042,000; increase \$10,000; per cent, 1.0.

For cost of farms land improved in 1910 was \$92,000; in 1900, \$91,000; increase \$1,000; per cent, 1.1.

For cost of total land area, 1910, \$1,052,000; in 1900, \$1,042,000; increase \$10,000; per cent, 1.0.

All farm property in 1910 was \$1,014,400; in 1900, \$1,004,000; increase \$10,400; per cent, 1.0.

In 1900 it was \$1,004,000; in 1910 it was \$1,014,400; increase \$10,400; per cent, 1.0.

Implement and machinery: In 1910 was \$92,482,152; in 1900, \$81,717,000; increase \$10,765,152; per cent, 12.5.

Livestock in 1910 was \$127,858,000; in 1900 \$97,902,000; increase \$29,956,000; per cent, 30.8.

All farm property, average value per acre of land in farms in 1910, \$74.25; in 1900, \$37.00; increase \$37.25; per cent, 100.6.

Buildings, 1910, \$2,75; in 1900, \$2.60; increase \$0.15; per cent, 5.6.

Buildings, 1910, \$2,75; in 1900, \$2.60; increase \$0.15; per cent, 5.6.

Buildings, 1910, \$2,75; in 1900, \$2.60; increase \$0.15; per cent, 5.6.

BURGLAR GETS GUEST'S GEMS.

Man Hand Through Window of Dwelling.

Army Officer Host Is Evacuated by Intrusion.

Woman Losing Jewels Fights in Divorce Suit.

(See Front Witness, Cable, Eastern and Central News Service.)

THREE RAUVE (Ind.) May 15.—E. D. Mitchell, U.S.A., was making every effort today to locate the thief who reached through the window of his home and stole jewels worth \$1,000 from a drawer. The jewels were the property of Mrs. Charles C. Bradway, of Chicago.

Mitchell is particularly riled over the robbery as the second that same place at his home while Mr. Bradway had been his guest. On another occasion of Mrs. Bradway's visit the jewels worth \$2,000. This robbery was when the officer was stationed at Monroe.

On the night of the robbery, near the jeweler's shop in the latest theft, was a card game being played by Mrs. Bradway and her guests. In an adjoining room, with the door wide open, there was at the time of the theft a party of bridge players, one of whom was Mrs. Bradway herself, who was a guest of Lieutenant Mitchell. When a sudden gust of wind blew the cards off the table and then discovered the robbery.

Mr. Charles Mac Smith Bradway, daughter of J. W. Smith, who made himself a millionaire in the oil business, was born at Goldfield, Nev., and is now about a couple of years ago when she was seeing William E. Bradway, financier and club man, for dinner at the home of the Bradways at the Elwood Hotel; but it was said there today that she had gone to Des Moines, Iowa.

Miss Harry Mitchell, whose home is in Monroe, where she was born at West Point at the age of 18, has become celebrated through her work in the Young Men's Christian Association. Her parents are deceased.

Her father was a teacher in that institution on the basis of the military post and it is understood he did more than any other man to make it popular. He has a good military record and was twice wounded in the service against the Rebels in China.

ONE RAIVED TO DEATH.

Woman Caught in Caving Earth and Dies From Paroxysm Under Flame of Burning Gas.

(See A. P. DAY WIRE TO THE TIMES.)

HALLIE (Mass.) May 15.—Found in a trench by dirt and stones which had been laid on him while he and other workers were at work. Daniel Lewis, an employee of a local gas company, was buried in a shallow grave in a cemetery, his body having been recovered by the police. His companion, William F. McDonald, was blown from the trench by an explosion and was so severely burned that he may not recover.

It was the impression made from the scene of the accident that the explosion had taken place in his mouth and the other end ran out into the outer atmosphere. In this he was more than an hour late when working outside.

The flames were overcome by the smoke. When it became apparent that there was but little chance of saving him, Father George P. O'Farrell, pastor of St. Peter's Church at the risk of his life and interrupted the last rites for the deceased.

A Honeymoon by Aeroplane.

Claude Grahame-White and Miss Taylor.

LONDON, May 12.—(Exclusive Dispatch.) If the weather is favorable on the day the Claude Grahame-White, the aviator, and Miss Dorothy Taylor, are married, it is reported that they may start on their honeymoon by aeroplane.

PAPER BLOCKADES TRAFFIC.

MONTGOMERY, May 12.—(Exclusive Dispatch.) Over Project to Connect Los Angeles and the Sea By Rettie House.

Traffic on the East First street car line at 7th and West streets was interrupted for several minutes last night by a mile of Los Angeles Mountain新闻。

There were close to 1,500 papers placed on the tracks by newsboys hired by the management of the "newspaper owned by the city" to distribute in that district.

Instead of delivering the papers which cost the citizens of Los Angeles \$10,000 a year, the newspapersmen struck off their hats and then had to cover to watch the cars run over them.

The papers were thrown about for the yards in the vicinity of 7th and West streets, and the newsboys made an untidy appearance.

In a strange coincidence two columns of the news in yesterday's edition were devoted to praise of the city officials for the excellent manner in which the streets were kept during the past week.

Friday, May 11.

CHARTER REVIEW.

COMMUNIST Office of *Conqueror* and *Call* for IRA Election by the People.

The Charter Revision Committee, after a long discussion last night, definitely agreed to cross the option of continuing, and their diets were destined to be "crossed" the first of June, as a bureau of news and publicity." Mr. Works, who made the proposition, also had the municipal newspaper under the control of the same department, but this was not out before adoption. It was then decided that the controller of the news should be the other.

Other members of the committee were that the City Attorney, Civil Service Commission and Mayor and approved by the entire commission.

The library board was invited to meet with the commissioners on Friday evening, May 12, to discuss the proposed charter amendment. All the acts of the commission, by their own resolution, are not considered binding, but may be altered or eliminated as the majority voted when the final draft of the charter was adopted.

ARMED SALOON HELD UP.

SHOOTER Points Revolver at Attorneys With One Hand and Shoots Clerk Baggage With the Other.

Instead of employing the usual method of forcing a prospective victim to throw up his hands, a lone bandit entered a law office on Main street, last night and told the barbers to keep his hands below the bar, while the thief opened the cash register and took about \$15.

The only person in the saloon at the time was the manager, who was seated at the counter. He was washing the glasses when the robber entered by a side door. Suspecting nothing, Lombardo turned his back for a moment when he suddenly heard a thinness of voice come from the other side, and not to raise his hands or some passing pedestrian might be attracted to the scene and give an alarm.

Operating with determination the bandit held the attorney armed with one hand while he opened the cash register with the other and at no time did Lombardo have a chance to react. After obtaining the money the bandit darted around the door leading to Main street and disappeared.

The robber is described as being about 30 years old, very pale and wearing a small mustache. He was of medium height and of slim build and at the time of the crime was dressed in an old light green suit of clothes. A black slouch hat covered his face and he was wearing the police. His actions indicated that he had not a notion at the holdup game.

This saloon is being cut in two by the expansion of a street.

THIRTEEN Select camping party now in San Francisco, a good vacation at little expense. One month, all expenses.

BANKER LIKES LOS ANGELES.

CHICAGO Man Tells of Prosperity Here and Yes to Come.

BY DIRECT WIRE TO THE TIMES:

CHICAGO, May 15.—(Exclusive Dispatch.) John J. Mitchell, president of the Illinois Trust and Savings Bank, who spent the winter in California, declares times are good on the Pacific Coast, and that even better times are expected with the opening of the Panama exposition in Francisco. "Business is booming in Los Angeles," said Mr. Mitchell. "The town grows surprisingly. There is lots of building and very little for rent."

DEPICTS THE WEATHER.

Mrs. Eaton Taft Goes Out Riding; Mrs. Taft Gives a Luncheon to Wives of Congress.

WASHINGTON, May 15.—Miss Helen Taft, the President's daughter, is not to be deterred from her morning gallop by a wrinkle or frown in cloudland. This forenoon Miss Taft was early in the saddle and, mounted on her favorite Chippin, rode out with Miss Gertrude Gordon, defying the gloomy and threatening weather which prevailed.

Miss Taft gave a luncheon party today at which several of the girls were wives of great men once connected with the affairs of State, but since taken by the majority. They included Mrs. Thomas F. Brady, widow of Cleveland's Secretary of State, and Mrs. John Hay, widow of the father of "The Open Door." Mrs. John Hayes Hammond, whose husband is now at the head of the Panama Pacific Commission in Europe; Mrs. Eugene Hale and Mrs. A. Gordon Cumming were also of the party.

The hospitable hostess of the White House poured her friends in the afternoon

coffee and tea.

COLLIER GOES OUT.

CRUISER COMES IN.

VALLEJO (Cal.), May 15.—The liner Prometheus will be released from drydock at Mare Island navy yard tomorrow and will proceed to Tiburon, where she will take aboard coal for the torpedo boat destroyer Flotilla now at San Diego. In two days' time, the cruiser will enter the drydock Friday, until when the full extent of the damage will be ascertained.

"I think he brought a letter to me sealed," he continued. "I found it was a letter from Judge Archibald to the King of Spain. I am not sure what price would be paid."

"It was through the judge's influence," he said, "that I was finally willing to recommend the sale of the claim to the executive officers of the institution."

Judge Archibald had talked several times with Judge Archibald about the option, but could not remember when or where.

He had received other letters from Judge Archibald, dated December 14. Judge Archibald wrote:

"In the meantime, may I ask you to hold the price you have given for the Hillside interest as confidential?"

He also referred to Judge Archibald:

"I shall say nothing to any one about our interests."

COUGHT IN THE ACT.

AUGUSTA (Cal.) May 15.—A whale which had been adrift in the ocean for eight days was captured this afternoon by Sheriff McAuley. Wall supplied with drills and files, an organ-

ized crew of 12 men

and a gunboat

surrounded the whale.

NEWS IN BRIEF.

Magnates Go to a Union League. Owing to a conflict of arrangements, the meeting of the Engineers and Architects Association will be held at the Union League Club this evening at 6 o'clock.

St. Joseph (Mo.) Society will hold a general market picnic at Venice Saturday. Persons wanting to St. Joseph are requested to make an arrangement with the manager. Picnic will be opened on hand. Fishermen's Club Meeting.

The Fishermen's Club will hold a meeting this evening at the First Congregational Church, on the subject "What the Christian Life Means to Me." Tomorrow evening, the young men will hear an address from Dr. H. A. Turner on "The Law of Love."

Dr. Lyman E. Sperry will deliver a lecture this evening in the First Congregational Church, on the subject "The Story of America." The lecture deals with the great national parks of the West, which will be elaborately illustrated. The lecture is given under the auspices of the Boys' Brigade, and there will be no charge for admission.

Police Chief Commanded. At a recent meeting of the N.E.W. Commanders and Improvement Association resolutions were adopted commanding Chief of Police and the active force for efficiency during Shrine week. The resolutions declare that the superb handling of the enormous crowds was without precedent and that Chief Sebastian and his force deserve unstinted praise.

Thirty agents of the Pacific Mutual, accompanied by their wives, enjoyed a luncheon at Christopher's downtown Broadway place at noon yesterday. The luncheon was presided over by T. C. Rice-Wray, who read a letter from the California Insurance Commissioner, which gave the company credit for assets \$100,000 in excess of its reports to that official.

A City Charter. Lewis T. Works will address the Women's Protective League Saturday afternoon at 8:30 a.m. on the subject of the City Charter. The meeting will be held at the lounge hall in the Higgins building. During the session of the Charter Revision Committee the league has been represented by its president, secretary, Miss Jeannette Coevers, who last night for Camp Meeker in the county, where she will enjoy an extended vacation.

Golden West Commander Elects. Captain Leslie Templar, met in Masonic Temple Saturday for the annual election. Callech L. Johnson was chosen and installed as Eminent Commander; David Martin, Captain General; George Edward Nelson, Captain General; John H. Jeffries, Senior Warden; J. L. Johnson, Junior Warden; Frank X. Pfaffenbach, Treasurer; Andrew R. Robertson, Secretary.

Branding Meeting. The S.P.C.A., through Superintendent H. E. Dill, had a meeting in Blanchard Hall yesterday evening to arouse sentiment against branding livestock, and invited other organizations to attend and co-operate. The C.U.P. Federation has informed the movement will all participate. The National Animal Breeders' Association has declared its opposition to branding, as a cruel practice.

Mision Play to Help Boys. The managers of the Mission Play at San Gabriel have agreed to give the proceeds of next Sunday afternoon's performance for the benefit of the George Junior Republic. This institution for the uplift of boys, now known as the C.U.P., is making splendid progress, but is in need of funds for its building operations. For this reason it is particularly desired that the Mission Play be given a large audience on Sunday afternoon.

President of the Chamber of Commerce yesterday announced the appointment of John W. Mitchell and W. B. Lanahan to represent the chamber at the City Planning conference to be held in April 27th and 28th inst.

Oscar Mueller was appointed a member of the Harbor Committee to succeed Homer Hamlin, resigned. Vice-President Clark will represent the chamber at the twenty-fourth anniversary banquet of the Pasadena Board of Trade at the Hotel Mary this evening.

Dollars for Disaster.

Twenty-six hundred dollars in return for one silver dollar minted in 1844 was paid to Alvin J. Fink, a curio dealer, of Dayton, O., yesterday according to a dispatch received from the Ohio city last night. Fink purchased the coin about a week ago paying \$1500 for it. He immediately advertised for a buyer and in a few days heard from a Negro who did not know the history of the dollar. He told that it was the only one in Ohio and that there are only thirteen of them in existence.

BREVITIES.

The Reckoning.
MAILED FIST TO CLOSE ON I.W.W.

Federal Grand Jury Begins Active Investigation.

Probe to Be of National and Sweeping Character.

Seek to Prove Treason and Rebellion Inciting.

The long-threatened investigation of the inner workings of the I.W.W. organization began before the Federal grand jury yesterday. The probe that has been in progress in a more or less active way for the past six months will now make for the testimony of witnesses supposed to have an intimate knowledge of the doings of the lawless band who have lately been making San Diego their headquarters.

Witnesses have been summoned from all parts of the United States, from Chicago to the Pacific Coast, and the inquisition will be relentless and far-reaching. It is proposed to see if there is power in the Federal government to meet the situation that causes the industrial and business situation in San Diego to dig down to the bottom facts of the organization itself.

It is understood that in the neighborhood of twenty witnesses will be examined by the grand jury during the inquiry, being subpoenaed as they are needed. More than one-half of that number will come from San Diego itself. Other witnesses will be summoned from those who are familiar with the inner workings of the I.W.W., known as the "Mafia" branch of Miners organized by Vinton St. John in Chicago in 1905, and of which the notorious William D. Haywood of Coeur d'Alene is a high light.

The marshalling of the evidence has been the main task of the office of C. H. de Lacour, who has been in the pay of the commercial bedies of San Diego for months; James Galnor, Assistant Service Agent of the United States Treasury Department; Joe E. Myers, captain of the San Diego detectives, and John L. Sehon, Superintendent of Police of that city. They have been at work since early in the spring, when the I.W.W. began to congregate at San Diego and vicinity. They have mingled with them, attended secret meetings, held positions of confidence and trust, learned of their aims and methods, and secured most important and valuable information. This will all be at the command of the government.

It is alleged that the preamble of the I.W.W. constitution, under which the gang operates, affords the greatest opportunity for securing evidence to show that the organization is aiming to the theory of treason and inciting rebellion. Under the Federal statute, it is no crime to even preach anarchy, if it is done in a quiet, unobtrusive way. The efforts against treason and inciting to an open outbreak are very radical. These have all been violated, it is declared, vast amount of documentary evidence to be had in the possession of the grand jury, and Detective de Lacour yesterday deposited a suit case full of the memoranda in the office of Assistant United States District Atty. Robinson, who has charge of the case.

During the series of conferences between the United States District Attorney and officers from San Diego, it was agreed that the moment could not legally interfere with only the violation of a city ordinance was alleged. But the officers were told to secure all the evidence they could about that, and hold in abeyance action upon it until the election of the Federal statutes. This has been done, and the grand jury probe is the outcome.

It is not understood that James Galnor, the chief of the I.W.W. in San Diego, will come within the purview of the grand jury inquest. The officers who have been working on the case have in their possession a number of letters and there is nothing in them upon which to predicate a prosecution.

PINE MAKES HIM WINCE.

Long Beach Man Pays Hundred Dollars Because He Drove Auto at Almost Mile-a-Minute Clip.

After C. A. Shilling, a wealthy Long Beach realty dealer, had smugly admitted having been previously fined \$15 for speeding, before Justice Reeve, yesterday, the court astonished the beach resident by fining him \$100, with the alternative of going to jail for ten days.

Schilling, astonished, sent to Long Beach to pay the fine with \$50 in his pocket, and, after spending three hours in the office of the Justice, the fine was paid and he was released.

Motorcycle Patrolmen Nelson and Schilling, who are spending time automobile at the rate of fifty-eight miles an hour on the Long Beach boulevard near Compton, Calif., said he chased Schilling two miles before he caught him. Schilling admitted violation of the county speed ordinance, and seemed anxious to pay and get away.

TO PROTECT THE CHILDREN.

Club Woman Urges Adoption of Tuberculin Test Ordinance—Gives Figure in Support of It.

In an address before the Federation Club of Los Angeles, yesterday afternoon, Mrs. Charles Farwell Edison explained the nature of the tuberculin test ordinance, which is to be voted on at the coming election, and urged its adoption. Mrs. Edison stated that one-twelfth of tubercular cases in children are diagnosed as being milk supply and that the percentage of tuberculous cases in children is much higher.

Mrs. Edison declared that the objections to the ordinance were well taken; that the tuberculin test is never injurious to healthy cows and that it is the most effective protection against tuberculosis in the cattle, the speaker said, for the branding of infected animals and for an increased number of milk inspectors.

STEAMERS TO AUSTRALIA.

Sydney Short Line Service Resumed by Oceanic Company, Beginning Here on July 2.

A. M. Culver, local agent of the Oceanic Steamship Company, has announced the schedule of the Sydney Short Line, as the resumed service between here and Australia is to be known. The service will begin July 2, and from then on there will be a sailing every twenty-eight days to Sydney and a ship every fourteen days to Honolulu. The service will be contributed by the liners Sonoma and Victoria, which will run between here and Sydney, and the Sierra, which will continue to run between here and Honolulu.

Each of the ships is 16,000 tons, they are rated 100 A-1 at Lloyd's and were built under special survey of the United States navy as auxiliary cruisers. They are steel vessels, twin expansion engines developing more than 8000 horse power, and have a speed of more than seventeen knots an hour. The ships have double bottoms and are equipped with water-tight compartments.

The re-establishment of this line will link American Samoa with the United States and restores direct connections with Sydney, which port it brings within nineteen days of San Francisco.

Reclamation.

TO FIGHT FOR STATE'S SHARE.

IRRIGATION EXPERT AROUSES BUSINESS MEN.

Tells Chamber of Commerce Persistent Effort by People of Southwest Would Result in Addition of Twenty Millions Worth of Assessable Property.

That persistent and well-directed effort on the part of the people of Southern California would result in the addition of assessable property to the amount of \$20,000,000 is the statement made by A. R. Kanaga, San Francisco to the directors of the Los Angeles Chamber of Commerce yesterday afternoon.

Kanaga is a writer on irrigation subjects and has been in close touch with important projects of that kind in the West and Southwest for fifteen years. He believes California is beaten by other states in obtaining government appropriations for reclamation projects and the assessment effort should be begun at once to secure for this state a rightful share in the government funds available for such purposes.

Kanaga is here at the request of a number of local business men and opened the campaign yesterday by urging the Chamber of Commerce to take steps to induce the government to appropriate money from funds received from the sale of public lands.

(Continued on Seventh Page.)

Strange.

QUICK RECOVERY FROM WOUNDS.

Stabbed Woman Is Already Out of Hospital.

Mere Scratch, Says Doctor; Is Story a Hoax?

No Residence Where Attack Reported Made.

Dr. Rae Smith stated yesterday that he did not treat Mrs. Robert Northam, the young wife of Col. Northam, for knife wounds during her one night's sojourn in the California Hospital, but that he had been summoned merely to assist her to obtain a good night's sleep.

The announcement of Dr. Smith is corroborated by the authorities at the California Hospital, who say Mrs. Northam did not complain of any wounds, but was nervous, and her physician was called up on the telephone by the night superintendent of the institution.

The further developed yesterday that Mrs. Northam did not "rush bleeding from a score of wounds" to the hospital immediately after the alleged attack by three women at the home of her husband, but that she went home and the following day, when her attorney, Frank Burdick, San Francisco, arrived, went to the hospital and the wild report was given out by Burk that she was desperately wounded.

According to those who have witnessed the affair closely, it is believed that the entire episode is a hoax and that Mrs. Northam was not attacked.

Dr. Rae Smith stated yesterday that the wound she and Burke stated were inflicted by a desperate woman, have turned out to be the mereest scratches. These, according to Dr. Smith, might have been made by a woman who herself could have done it, he says.

Mrs. Northam left the hospital yesterday morning and met her lawyer by appointment at the Van Nuys, who was soon joined by Frank Burdick and accompanied Burk to the District Attorney's office. It was found impossible to obtain complaint against the alleged assailants. The excuse was made that the various various agencies involved by the state was not enough facts at hand to warrant action.

The names of two women of Los Angeles, who were present at the attack, were given to the police, and last evening Burk said he would go again to the District Attorney's office and seek complaint.

DON'T KNOW THEM?

When the matter was brought to the attention of the husbands of the two women, they were called in. Immediately started on the war path to find out how such a story could get out, and

(Continued on Third Page.)

Semi-Official.

CITY AND COUNTY VOTE NEARLY TABULATED.

ing attracted attention as the returns came in. For one thing, Mrs. Abbie Krebs, leader of the group of delegates selected for Taft, and W. E. Smythe, leader of those for La Follette, benefited by the scratching that was freely indulged in. William Kent, the Roosevelt delegate, who voted for Taft, was the only one to scratch the name of La Follette, while the names of the other candidates were not scratched.

Young Carter went to Nebraska, where he remained six years. A short time after her schoolboy sweetheart left his home town to take a whack at the big world, the Ireland family moved to Delavan, Ill., and Charles and Clara corresponded for a few months after his departure and then lost all trace of each other.

Fourteen years ago young Carter left Nebraska and came to Southern California to try his luck in this smiling land of plentiful return. During the years of separation the world was not the same to him, and he was unable to get back to the young girl back in Delavan and her ambitious sweetheart in Los Angeles.

Love understands and therefore waits the quarter of a century waned and grew.

About a year ago by a lucky turn of the wheel of fate, Charles M. Carter, a persistent claim agent from the Los Angeles advertising firm, discovered that his sweetheart of long ago, was living with an aged cousin in a small town in Illinois. He wrote; she replied, and just thirty days ago he met her at the station.

"It seems but a few hours since we parted, doesn't it?" said the bridegroom yesterday afternoon in the sitting-room of their cozy apartments.

"Our patience was rewarded a thousandfold," returned the bride happily.

The groom is a brother of Dr. Carter of the Receiving Hospital, and is well known in local railway circles. Late Mr. and Mrs. Carter will go to San Francisco, and other points of interest in California.

ANSWERING.
DARROW TRIAL NOW OPENED.

Bribery Charged to Chief McNamara Lawyer.

Twelve Temporary Jurors Already in Box.

Accused Man Appears to Be Unconcerned.

With remarkable coolness displayed by the defense in temporarily passing twelve talesmen for cause and a remarkable lack of interest shown by the public, the trial of Clarence Darrow, former chief counsel for the McNamara, on a charge of jury bribery, began yesterday in Department Eleven of the Superior Court. Judge Hutton presiding. The defendant appeared cool and unconcerned, whether from a confidence in the result of the present trial or through some remarkable rejuvenation of his mental and physical activities. He displayed none of the restive emotion shown in the McNamara trial and swayed easily back and forth in his chair, quietly studying the characteristics of each talesman and whispering suggestions to his leading attorney.

At the close of the first day twelve temporary jurors were in the box, one under challenge for entertaining an opinion of the innocence of the defendant. Upon the question of his eligibility, Rogers and Asst. Dist. Atty. Ford indulged in heated argument over the law of challenges.

Judge Hutton will render his opinion this morning. The basic of Ford's challenge is to the effect that the talesman, Alfred F. Bryant, had expressed his belief on several occasions that Darrow was a much more dangerous man than his high class challenger to defend to jury bribery.

Ford also sought to elicit from the man that he had openly condemned the prosecution in the McNamara trial and his statements lay with Socialists and labor unions. Bryant, if not removed by the court upon the challenge for cause, will be summarily challenged by the State when that time comes.

LATE IN BEGINNING.

The trial did not begin until some time after 10 o'clock as there were many difficulties in disposing of the defendant. The man who was mostly during the trial of J. H. McNamara, the confessed murderer and dynamiter, was accompanied by his wife and several other relatives, among whom was Captain Fredericks, his attorney, and his assistant, John W. Arnold, No. 214, New York.

Capt. Fredericks gave a brief statement of the case. He said the defendant—pointing to himself—was accused of intent to commit a bribe. The defense, however, discovered that his son, an aged cousin in a small town in Illinois, was living with him.

Young Carter went to Nebraska, where he remained six years. A short time after his return to the state he was married to Clara, a young girl from Delavan, and then went to Los Angeles to seek his fortune.

When Judge Hutton called the case the jury box was filled with the list of thirty talesmen assigned to Department Eleven. These men were: Alfred F. Bryant, Charles M. Carter, George Claremont; A. J. Snyder, San Gabriel; G. Ritchie, No. 123 South Griffin avenue; P. E. Hoag, Compton; H. E. Parker, Pasadena; O. E. Copeland, Whittier; E. E. Pinner, P. C. Ritter, No. 127 West Forty-fifth street; A. M. Conner, Pomona, W. P. Perkins, Lordship. The latter was excused and John W. Arnold, No. 214,

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.
The City Engineer yesterday reported to the Board of Public Works that the proposed diversion of Buena Vista street to Broadway at Temple street would cost \$317,000, and he desired its veto.

A committee of citizens deputed to present the proposal to the Council chamber yesterday by Lemoyne-street property owners, who have been gathering every cent available to pay expenses already accumulated and stop an expensive street improvement.

The Police Commission yesterday decided to revoke the saloon license of Mike Block at San Pedro, whose employees failed to aid officers in an W. W. riot in front of him and in the station.

Special committees appealed to the City Council yesterday for \$10,000 in national G.A.R. encampment, to be held here next fall.

The Budget Committee yesterday announced that its expenditures next year will have to be about the same as for the present fiscal year, although increased demands are springing up on all sides.

At the City Hall.

BOARD REFUSES TO RECOMMEND.

SENDS TO COUNCIL A STREET DIVERSION PROBLEM.

City Engineer Reports Proposed Changes in Buena Vista Street Would Require Outlay of More Than Eight Hundred Thousand Dollars.

The Board of Public Works received the report of City Engineer Hamilton on the proposed diverting of Buena Vista street to Broadway at Temple street yesterday afternoon, but after consideration refused to take action on the subject, deciding to send the report along to the City Council without recommendation.

The proposed improvement was presented by Judge M. M. Moore and others with the idea of providing a way for the operation of street cars by North Broadway and through this changed street.

The City Engineer reported sufficient surveys and observations have been made to determine the approximate cost of labor and material required to make the proposed change, and also the probable expense or damage which would be sustained by property adjacent to the proposed improvement.

A retaining wall would be necessary to support the earth on the west side of the opening and it would be necessary to lower Buena Vista street below the level of the new street, which would also require the lowering of a triangular piece of ground bounded by Temple, Buena Vista street and the proposed new street.

The City Engineer's estimate is that the necessary excavation would cost \$35,000; hauling away earth, \$54,400; asphalt paving, \$15,700; stone walls, \$16,100; curbs, \$800; retaining walls, \$11,000; granite block gutter, \$3,500; paving, \$1,000; total cost, \$275,000. The estimated damage too property is placed at \$54,000; making the total cost of the entire project \$327,000.

The City Attorney says: "I am of the opinion that the benefit would be derived by adjoining property and the general public would be very small, considering the expense involved. Very little, if any, of the damage on the west side of the improvement between Temple street and the proposed new street would be eliminated."

The City Engineer's estimate is that the necessary excavation would cost \$35,000; asphalt paving, \$15,700; stone walls, \$16,100; curbs, \$800; retaining walls, \$11,000; granite block gutter, \$3,500; paving, \$1,000; total cost, \$275,000. The estimated damage too property is placed at \$54,000; making the total cost of the entire project \$327,000.

WILL REVOKE LICENSE.

After an entire afternoon devoted to a hearing of the charges against Mike Block, who conducts a saloon at No. 411 Front street, San Pedro, the City Commission, after much debate, decided to revoke Block's license, thus revocation to take effect at the end of this month.

It was shown that Block's bartender bought a watch which was afterward shown to be stolen property, nor did they even telephone for assistance.

It was also shown that when an L.W.O. riot occurred in front of Block's saloon his employees did nothing to aid the police nor did they even telephone for assistance.

It was further shown that the mot and a prisoner was liberated because the police did not have sufficient help to hold him.

Budget Committee's Troubles.

The City Council ordered the abandonment of all proceedings for the improvement of Lemoyne street, between Grafton and Colorado streets, yesterday, in accordance with the protest of property owners who alleged that the cost would cripple their finances.

At a recent meeting of the Council it was agreed that proceedings should be abandoned if the property owners would pay the costs already incurred in the proceedings. Representatives of the property owners appeared yesterday with an envelope filled with money and silver coins and even diamonds which had been collected from lot owners in an attempt to meet the Council's demands.

There was but \$375 in the pile—about \$80 short of the amount demanded. The pastor of the Nazarene Church on Second street and his wife, the people and it was asserted the amount presented was all that can be raised. Under the circumstances, the Council ordered that the amount tendered be accepted and the proceedings be dropped.

WATER RATES.

THEY DISCUSSED.

The City Council in an adjourned session last night began its hearing in regard to protests against the rates fixed by the Board of Public Utilities for public-service corporations. This meeting was devoted to a consideration of water rates.

C. J. Hegier, president of the Hollywood Union Water Company, was the first to appear. He gave a hearing before a special committee.

The rates for the Hawthorne Water Company, the Windsor Water Company, the Los Angeles County Water Company, the Los Angeles City Water Works and the Brothers' Los Angeles Water Works were reviewed, and as there was no formal protest made, they were adopted. The rates are the same as those adopted by the Board of Public Utilities last year.

The next group to pass without protest included the Vernon Square Water Company, the Greater Los Angeles Water Company, the Artesian Water Company and the Stovall Water Company, which will also operate under the same rates they have had during the past year.

Seward Cole, representing the Colgrave Water Company, protested that the rates were too high, but the water company's minimum rate of any concern operating in that part of the city, he stated that year before last his com-

pany operated at a loss of \$300, last year it lost \$300, and this year it is likely to be slightly less, but that it should be allowed to charge a rate on which it should at least break even.

City Attorney Long of Long Beach represented the municipal water department, which pays \$1,000 a month the \$1 minimum rate set for Terminal Island. Long explained that the city of Long Beach would gladly forego the task of supplying Terminal Island with water if it could just how to let the water stand there. The water meters Long Beach would throw in the distributing system and turn the business over very gladly.

Long stated that he believed Long Beach had no legal right to supply Terminal Island with water.

A. Winsor stated that the law in the state of California required that the city of Los Angeles would purchase the water meters Long Beach would throw in the distributing system and turn the business over very gladly.

All of these protests were set aside tomorrow night at 7:30 o'clock, according to the committee, when testimony will be taken by a strong reporter. The Council will ask the Board of Public Utilities and Chief Engineer Mulholland of the Los Angeles aqueduct to meet with it at that time.

A protest from property owners and water users of New York Valley against the rates charged by the Glenwood Water Company was received, but was referred to the Board of Public Utilities.

Lewis R. Works presented to the Council a proposed ordinance regulating plumbing and building for the purpose of preventing of plumbing inspection. He urged its consideration, stating that it was practically the same as ordinances now in use in the larger cities of the United States. It was referred to the Legislati

Archer Out of It.

With reference to a suit filed in the United States District Court by the American Well Works of Chicago against the Oil Well Supply Company for the infringement of a patent well-drilling apparatus, H. M. Herron states that he has no connection with the defendant concern, and has no interest, direct or indirect, in the action.

Transfer of Licenses.

The Police Commission transferred several liquor licenses yesterday in cases where businesses have been sold. Transfers of restaurant liquor licenses were made to S. Ichino, No. 410 North Alameda street; Louis G. Gatto, No. 122 Court street; Joseph J. Leto, No. 125 East Fourth street; and Juhakai Uchida, No. 215½ East First street. The retail liquor license of Joseph M. Frame, No. 499 East Fifth street, was transferred to William Murphy.

City May Now Pay.

City Attorney Westover, who has had charge of the city's interests in the controversy over the widening of Eighth street from Main street to Central avenue, announced yesterday that the time for appeal to the higher courts has expired and the Board of Public Works is now in a position to pay \$100,000 for damages.

This proposed improvement has been productive of considerable litigation. A strip of property twenty feet wide on the north side of the street is to be taken for street widenings.

Will Revoke License.

After an entire afternoon devoted to a hearing of the charges against Mike Block, who conducts a saloon at No. 411 Front street, San Pedro, the City Commission, after much debate, decided to revoke Block's license, thus revocation to take effect at the end of this month.

It was shown that Block's bartender bought a watch which was afterward shown to be stolen property, nor did they even telephone for assistance.

It was also shown that when an L.W.O. riot occurred in front of Block's saloon his employees did nothing to aid the police nor did they even telephone for assistance.

Closing Words.
DEFENSE IN LIBEL SUIT.

TAGGART CASE TO GO TO JURY THIS MORNING.

POINT MADE THAT "TIMES" ARTICLE WAS TRUTHFUL REPORT OF WHAT TOOK PLACE AND FAIRLY DEDUCIBLE OF MALICE.—"FIRST CLASS RISK." WHAT IS IT?

THE HOTEL SUIT BROUGHT BY CLARENCE TAGGART, CITY TAX COLLECTOR, AGAINST THE ROCK SPRINGS WATER COMPANY SO THAT 75 CENTS COULD BE MADE THE MINIMUM RATE FOR TERMINAL ISLAND.

ALL OF THESE PROTESTS WERE SET ASIDE TOMORROW NIGHT AT 7:30 O'CLOCK.

THE DEFENSE yesterday下午

REPRESENTED THE MUNICIPAL WATER DEPARTMENT WHICH CHARGED THE 75 CENTS RATE AS UNLAWFUL.

THE DEFENSE STATED THAT HE BELIEVED LONG HAD BEEN DRINKING ALL MONDAY EVENING AND THAT HE GOT OFF THE CAR AT A STATION TWO MILES WEST OF EL MONTE AND ENDURED TO WALK THE REMAINING DISTANCE TO HIS HOME VIA THE CAR TRACKS.

THE FUNERAL WILL BE HELD THIS MORNING AT PIERCE BROOK. INTERMENT WILL BE AT SAVANNAH CEMETERY, NEAR EL MONTE.

had been drinking all Monday evening and that he got off the car at a station two miles west of El Monte and endeavored to walk the remaining distance to his home via the car tracks.

The funeral will be held this morning at Pierce Brook. Interment will be at Savannah Cemetery, near El Monte.

ASKS COUNCIL'S HELP.

A committee from the Chamber of Commerce and the local posts of the Grand Army of the Republic visited the City Council yesterday and asked the members to vote to appropriate \$10,000 toward the national G.A.R. encampment to be held in Los Angeles next September.

Messrs. Klocke, Osborn, Butler, Slauson and Wankowski urged the claims of their organization, one which the city should contribute liberally.

It was stated that the State has pledged \$25,000 and the county \$15,000.

Councilmen expressed their desire of aid in much of the financial condition of the city will allow, but explained, the difficulties that are before setting the budget Committee in bringing down the demands to the city's income.

WANT PIPE LINE PERMIT.

The City Council yesterday refused the application of the Commercial Pipe Line Company for a permit to tunnel under West Fourth street in order to connect the buildings of these companies with a steam heat and compressed air system.

Mr. Taggart, attorney for the defendant, will appear in court to represent the plaintiff and Attorney Hammer for the defense.

The defense yesterday sought to show that the article complained of by the City Tax Collector was written by a court reporter for The Times.

HARVESTING THE LANGUAGE.

Contemplated improvements of \$750,000 at a local hotel are delayed because dead man who owned it used the word "dead" in his will. If our man depended on our use of English at all we would be bankrupt.

DETERMINED.

Carrizo is rallying his forces for another of those decisive battles in Mexico but do not decide. If the Mexicans win, however, we are glad to see them killing one another instead of robbing themselves with the robbery of certain-owned ranches and mines.

SAVING LIVES.

After falling sixty feet headforemost upon the edge of a man's nerve or ordinary circumstance would be dead, but the man to whom this actually occurred here Tuesday sat up an hour afterwards and ordered a slab of straw meat.

DODGE OF BUTCHER.

In New York one woman is going to save a large sum of money which she has spent on the other while they're friends. This illustrates the excellent nature of every fellow paying for himself as well. No man should ever allow another to do for him anything which he can do himself.

DOMINATING.

None of the Chicago women's clubs are described charity, tag day, as the generalization of the charms of young men on the street corners. We suppose it is the presence of devils we should offend; but at first blush it would seem that the ladies are a trifle harsh in judgment of their husbands and sons.

PATERNITY.

Tung Wing, who died at his home in San Francisco, a few days ago at the age of 60 years, was graduated from Yale in 1886. He devoted all of his life to efforts to spread western education and ideals in China and Japan. His young manhood was earnest and active advocate of China's reformation into a great republic. Such as Tung Wing had the cornerstone of their nation's progress.

SAFEGUARD.

San Diego seems on the way to find a home for the L.W.N. nuisance. When Emma Goldman felt herself compelled to leave a city on account of the illness of her son and the general oppressiveness of the atmosphere there the San Diego men gained a victory along the right. If public opinion crystallizes at a point any vital issue and speaks up fearlessly a positively evil cannot establish itself.

GOOD BUSINESS.

In raising the wages of nearly every native office the trustees of South Pacific are showing good business judgment. Their city is growing so rapidly a due of its officials are constantly moving and that sort of work is worth doing unless it is done well. The public has no right to take advantage of a simply honest he is public-spirited. My public duty which occupies a man's time should be made to pay its own way.

W COMMUNIST.

In taking observations on a heavenly body not shown on any astronomical map the stars on eastern paper make if the sun has not told often those who seem to know and talk the most about heaven in the least about this world. We have, I have also noticed that, while a majority of persons sing a good many hymns in the promised land, not one of them are ready to sing for that bright port.

WORKERS.

Something like a year ago educators in cities in this country were involved in a bad controversy as to the need of a new University in the south. If such a situation is not avoided it only because most is filled by the excellency of those classes already here. The University of Southern California will confer degrees on 200 young men and women at its academic commencement. This record will well back the university and the country.

GOOG LOGIC.

Thomas T. Yann says the greatest idea of crime today is getting rid of a criminologist. He furthermore argues that the most distinguished citizens shown whistlers, shaved of head and garbed in striped jumper would be a sight to make a criminologist weep for joy at the decency of the specimen. As warden of Colorado penitentiary Mr. Yann ought to know that shaved heads and clothing do not fit ticks are a part of the punishment and not the cause of crime.

BUTTY FORCE.

While nobody imagines that the Outfit would rather be right than President, we are pleased to note the correctness of its position in its opinion that the United States is far behind some of the species of Europe in the prevention and reduction of crimes of violence. It is a fact that in England and France, where law is dealt with more severely and leniently than here, murders, robberies and assaults are committed with less frequency. Lenity of law always encourages crime. Sure and swift punishment causes a criminal to look before he leaps, and frequently does not leap.

THE TURNING OF THE TIDE.
One swallow does not make a summer, nor does winning one battle end a war. Yet in the decisive victory of President Madero's Federals over Orozco's insurgents at Cuatro Choncas we see the first glimmering hope for a cessation of hostilities in our faction-torn sister republic. The suspicion that the rival generals and their respective armies were indulging in a game of hide and seek, while the unfortunate country was going to the dogs, has at any rate been dispelled.

A sharp decisive campaign is the best hope for Mexico to prove to the world that she is not being broken up into a series of petty principalities, that there is one party in the state strong enough to govern. Every month that passes by in desultory guerrilla warfare, accompanied by brigandage, looting and robbery, is demoralizing the whole people of Mexico, and this demoralization may bring Mexico to such a pass that only foreign intervention will ever save her from hopeless ruin. When a nation once becomes thoroughly unsettled, when lawlessness has once held undisputed sway throughout a large part of its dominions, it takes the magnificent forebearance of a Lincoln or the iron fist of a Napoleon to restore it to sanity and health. Wherever civil war exists, lawlessness, to a greater or less extent, exists also. The more evenly balanced the fighting factions, the worse it is for the country.

Therefore, if Madero has sufficient backbone and sufficient strength, we trust he will follow up his initial victory and force a decision of the issue with the least possible lapse of time. Better for the country that one faction should be irreversibly victorious or irreversibly beaten. Never in any situation were delays more dangerous than in the one now confronting the people of Mexico. The slaughter in the late battle shows to what a pitch the Federals and insurgents alike have been worked up during the long interregnum that has followed the downfall of Porfirio Diaz.

As a nation America is not attempting to judge between the rights or wrongs of the warring factions. But as a nation that has a great stake in the future welfare of the republic, America wishes to see a strong government re-established in the City of Mexico. If the victory of Madero means that the beginning of the end is in sight, that a strong government capable of governing is holding the reins of power, the event will be joyfully hailed by every true lover of peace.

CAMPING TURKEY.
Turkey is apparently on the eve of being carved. Not only Italy, which is looking for a leg, a wing and a slice of the breast on the north shore of the Mediterranean, but her own provinces and states are plotting for her dismemberment.

Albania deserves to be allied to Greece. Albania is in continuous revolt. Albanians claim for the home rule of their own sheiks and have no use for Turkish Janissaries. Bosnia and Herzegovina are gone, and Russia repudiates the suzerainty of the Sultan.

The Turks, from the days of Mahmud, have been wonderful soldiers, but wretched statesmen. They could conquer, but they could not rule. They could never assimilate the races which yielded to their sway. They could never make a coherent empire of Turkey. They could never hold their provinces together. The government of the Sultan periodically issues constitutional proclamations, but it rules as it has ruled for three hundred years, by force of arms alone. The world was led to believe that the late Turkish revolution was an effort to establish a free government with constitutional restrictions, but it resulted only in the substitution of military for absolute rule.

The Young Turks party took readily to tricky politics. They proclaimed a free ballot, but they packed their broad new Parliament with deputies belonging to the Young Turks party.

The Turks constitute only one-third of the population of the Ottoman empire, and of this one-third only a small proportion belong to the Young Turks party.

The Greeks, Armenians, Arabs and Albanians resented being governed by anachronists of their number. The Young Turks' majority in the Parliament was obtained by ballot-box stuffing and is sustained by military power.

The Young Turks party took readily to tricky politics. They proclaimed a free ballot, but they packed their broad new Parliament with deputies belonging to the Young Turks party.

The Turks constitute only one-third of the population of the Ottoman empire, and of this one-third only a small proportion belong to the Young Turks party.

The Greeks, Armenians, Arabs and Albanians resented being governed by anachronists of their number. The Young Turks' majority in the Parliament was obtained by ballot-box stuffing and is sustained by military power.

calls "The Lost Boy," wherein has full opportunity to display his country style. An atmospheric effect is "Fever," played only by men, but visits, striking and stirring, a story of the Southwest, that is real.

Johnny Ford of the "Can't Make You Love Me" fame, with Rose Barton at the piano, will sing and dance in a way to make anyone sit up and take notice.

Blanche Walsh and her company will give another touch with "Thunder God," the Vandys miniature musical comedy, the Mankichi Japanese and Wermwood's dogs and monkeys will also remain. The music and the pictures will be of the usual standard.

"Heaven will protect the working girl" is the theme at Piccadilly. Lucy May Bishop in her great part of Tillie Hobbs in "Tillie's Nightmare" is too great to be disappointed. The show is by far the best "Pop" Fischer and Harry James have yet created, and

SOCIETY

ELBOURNE'S appointment was given yesterday at the California Club by Mrs. Jack Jeune and Mr. Arthur Brady, who complimented Mrs. Jeune's, who Mrs. David Murray, of this city, and Miss Anna Wharton of Memphis, Tenn., who is visiting friends and relatives.

The weather was just warm enough to permit the most fetching of summer gowns, and Mrs. James in a handsome chiffon of white, emerald chiffon, and Mrs. Brady, in white chiffon and lace with pink roses, received their 100 guests. Others attending were: Mrs. Murray, who was attractive in an exquisite robe of white poplin, trimmed with black ribbon and a panel of imported silk; Mrs. Wharton, who had on an overcoat of old rose chiffon; Mrs. Peter Jones, white marquise.

An interesting affair of recent date was the jelly box party given at the Orpheum by Miss Cassie Bell of No. 1546 Wilton place, who later took her guests to the Chocolate Club.

the 23rd Inst. is to marry G. E. Wells. Miss Ethel Lyman Smith, Lieutenant Haines' future bride, is still the recipient of many congratulations. The Rev. and Mrs. Horace Porter are among the latest hosts.

Miss Ethel Lyman Smith was at home to her friends for a sort of farewell party Monday. She will leave this evening for the home of her parents in Westfield, Mass., where her wedding will be solemnized on the 25th Inst.

Mrs. J. L. Smith entertained for another bride in the person of Miss Beatrix Carter, when a large contingent of her girl friends were invited to make merry.

SOUTH PASADENA BANQUET.

Chamber of Commerce Preparing Plan for Women's Improvement Association.

SOUTH PASADENA. May 15.—An second banquet of the year of the South Pasadena Chamber of Commerce. Plans are being prepared for the affair, and it is expected will be completed this week.

The Women's Improvement Association.

The Women's Improvement Association gave a delightful musical pro-

gramme this afternoon in the hall on Meridian and Mission streets. Those

who attended are: Mrs. Clarkson Thayer, violinist; Mrs. John W. Thayer of Los Angeles, dramatic soprano; Miss Rose Chouteau pianist; Mrs. Philip Zobell of Los Angeles; contralto; Mrs. George G. Crandall, soprano; Miss Helen Mason, contralto, and Miss Harriet Vail, soprano. The hall was bright with the California poppy, and Mrs. John De Reavis was hostess, assisted by Mrs. E. E. Washburn.

The new Columbia street bridge,

which crosses the Santa Fe and Salt Lake tracks west of Hotel Raymond, and on the boundary line between Pasadena and South Pasadena, has been completed. It is a massive \$15,000 reinforced-concrete structure, and was designed by City Engineer Van Ornum of Pasadena. This bridge takes the place of an unsightly wooden structure, and has been constructed jointly by the city of Pasadena, South Pasadena, and the Santa Fe and Salt Lake railroads.

The low water situation will be

disastrous in all its phases at the

annual session of the Board of

Trustees next Monday evening, be-

ginning at 8 o'clock. Representatives

of the Pasadena Land and Water Company, the Pasadena Land and

Water Company, as well as all in-

terested citizens, are expected to at-

tend and participate in the discus-

RECEIVER ON DECK.

SAN PEDRO. May 15.—P. R. Bryant of San Francisco, recently appointed receiver of the schooner Hugh Hogan, has arrived here to assume charge of the windjammer.

Hugh Hogan, of the San Francisco

schooner is now discharging 400,000

feet of lumber for the Southern California Lumber Company, loaded at Coquille, Oregon. Hugh Hogan was built in 1904 at Marchfield, Mass., and cost \$12,000. It is alleged that although the vessel had made money it has never paid a dividend. There are about 100 stockholders, two of the largest being F. W. Carey and the Hogan Lumber Company of San Francisco.

MILK BEAUTY MINT: As a "spring remedy" nothing excels the mint lozenges taken before breakfast. The acid clears the throat and leaves the liver, leaving freshness to the complexion. If preferred, mint lozenges may be added to either hot or cold water.

Now more ill-natured than any one impediment to progress.

For Salt-Water Fishing.

Summer is surely here, for one of the big stores is advertising at special sale outfitts of fishing tackle for salt-water fishing.

For New Dogs.

"After spending many dollars upon various kinds of fancy dog soaps, said the dog-lover, "I have learned that plain castile oil in the first wash water will kill every flea, and that after this any good soap answers every purpose."

Fashion's Decrees.

A charming gown of cerise charmeuse has a broad girdle of muslin, with a velvet belt.

Turkish crepe gaiters and Turkish toweling are equally in the foremost march of fashion.

Meeklin lace is very much worn just now, and appears on many of the summer evening gowns.

The new parasol, called the "dome" or "barrel" parasol, is rapidly gaining in favor.

There is quite a penchant for blue in the summer colors at present, caused by the vivid shades.

There is a slight increase of fullness in the skirt. Tunics, double and triple skirts are to be worn.

Cordings, ruchings, puffed and pleated are much used for trimming the frocks of sheer material.

Stockings are frequently inset with real lace, and this again even embroidered with silk or velvet.

Men's white socks, for instance, are no longer the Ethiopian.

I believe they are in now, and are welcome there into

the morning, by now, probably characteristic.

And of course I am sure, it is now, some of the family," and has a really good time to love it. And we have to love it, too.

As pretty as in a white apron, and a white apron, too, as a white apron, too, as though they were not of an afternoon.

men will be increased to 200 at

MEMPHIS PROTEST.

Offices of the Merchants' Associa-
tion with the city officers today
protest against further collection by
the city of special taxes from the
merchants. It has been the custom
for years to collect from the busi-
ness men what is known as a trade
tax, and the merchants claim in
defamation against them and a
possible taxation.

Rogers rapidly passed
from one subject to another, but
he was asked if he had
any knowledge of the Memphis
former chief justice, George N. Arnold,
was asked if he was satisfied with the
instructions of the court in the case
of his deposition. He said he did not know any of the
facts of the case, and he did not know
what was known as a trade
tax, and the merchants claim in
defamation against them and a
possible taxation.

Rogers also drew a
list of several men and
said that the defense was tak-
ing immediate steps to take
up an ordinance compelling
merchants to confine all dogs to their
shops and to muzzle them besides
a period of sixty days.

AnIMALS INFECTED.

AN ORDINANCE TO PROTECT
VIRALIA, May 15.—Dr. George R.
Ward, the county veterinarian, re-
ferred to the Board of Supervisors
that rabies had been found in
several farm animals in the Aliso
district, and that on his ex-
amination he found a score of horses and cows
infected with rabies. He said that the disease has
been reported from half a dozen distri-
cts. Half a score of persons are tak-
ing the Pasteur treatment, and he
now that immediate steps be tak-
en to adopt an ordinance compelling
merchants to confine all dogs to their
shops and to muzzle them besides
a period of sixty days.

TO BUILD HOTEL.

Board of Trade today was in-
formed that a Visalia capitalist, who
has been appointed by the
court to take charge of the or-
ganization of a co-operative com-
pany among the merchants to finance
an enterprise, it is not antici-
pated that any difficulty will be en-
countered in securing a man to lease
the land for construction.

FRANCHISE.

George N. Arnold, president of
the California Gas Company, was
invited to speak at the meeting of the
Board of Trade today to lay
the annual exhibit and demon-
stration of the educational work
of Young Women's Christian Asso-
ciation.

Young Women's Christian Asso-
ciation Invites the Public to its
Institution Today.

The annual exhibit and demon-
stration of the educational work
of Young Women's Christian Asso-
ciation will begin this morning at 10 o'clock
and will continue until 9 o'clock in the
afternoon.

The public is welcome to the
parts of the building between
10 o'clock and 12 o'clock.

BEGINNING AT 10 O'CLOCK.

Beginning at 10 o'clock
will be exhibited in sewing, millin-
ing, cooking demonstration, gym-
nastic exhibition, and by the con-
cert school.

At 12 o'clock there is
a musical recital on the sixth
o'clock gymnasium, 25th
o'clock.

At 12 o'clock swimming, hand-
guitar club, amateur and profes-
sional piano, organ, violin, cello,
and other musical specialties.

On Saturday evening
there is a general
recital of the school of
music.

At 12 o'clock the
franchise will be held, to which
is invited.

Two "Demonstration Excursions" To Michillinda

Saturday & Sunday, May 18 & 19—300 Free Tickets—10% & 15% discounts to lot purchasers ON THESE TWO DAYS ONLY

The real exclusive, ultra-fashionable residential development guides our future in "Suburban Life" war." The kind of residential development you see pictured in "Suburban Life" and "Country Life in America" is being created in this country, in every part of all locations—or, as an enthusiastic visitor called it the other day—"best location in creation." Mr. H. E. Huntington's

Huntington and a dozen other multi-millionaires have built modern homes in this beautiful section. The cream of Huntington Drive is especially MICILLINDA—the orange, live oak, spruce and walmi trees, and residential park closer to Mr. Huntington's home and estate. Here is being developed a living place that matches the beauty and grandeur of the famous St. James Park and Chester Place of Los Angeles. A syndicate of Michigan, Illinois and Indiana millionaires, who own valuable property, are expending a fortune in improving and developing it into the finest residence property suburban to Los Angeles. Bear in

mind that Michillinda, right now, is in the early stages of its development plan of frontage on the west side of the broad, winding, park-like drive have made to preserve a natural park effect. A beautiful water garden and floral park will grace the entrance to the new residential section. Michillinda faces beautiful Huntington Drive, which is to be immediately extended into the finest thoroughfare one of Los Angeles. The Syndicate has made a generous appropriation, and big appropriations have been voted by Alhambra, South Pasadena, Arcadia and Monrovia. No boulevard im-

provement in Los Angeles county will be more desirable sections of Los Angeles and environs.

For seven years, real estate operators have been building and building certain sections of Los Angeles, but the result of this is dollars' worth of advertising, vigorous personal work, the wholesale building of residences and business houses, and the prevailing trend of buying activity does not by any means indicate that the best residential advantages are in

Micillinda.

Michillinda is a splendid triumph over the fifty-foot lot. Here, you can buy a house for as little as \$1500. Think of obtaining lots this size in such an exclusive district for so little money! Think of owning a house in close proximity to desirable neighbors of wealth and prominence, close to country clubs, for nearly 40 per cent less than you can buy cramped fifty-foot lots in

natural desirability took care of their growth and expansion and made artificial boom unnecessary. These comments are not made in a spirit of competition, but to show that the prevailing trend of buying activity does not by any means indicate that the best residential advantages are in

our

sheer merit to discriminate

as to the type of people who are influenced by the "hurry-up-music" of the day.

Those who demand respects of others who instantly recognize this kind

when they see it.

PORTERVILLE, May 14.—Dr. O. G. Higgins, a leading member of the City Council, went on record as favoring the opening of restaurants and cafes and created a sensation when he asserted at the meeting of the City Council last evening that there is considerable immorality in Porterville and that this immorality might as well be practiced in a restaurant house as in a

nightclub.

Higgins' statement was made after a petition, signed by a score of leading business men had been presented to the Council asking them to adopt an ordinance putting an end to the use of houses in cafes in this city.

Mayor Compton, Comptroller Trager and Councilman Vaughan are on record as opposed to the boxer and Higgins and Leland Korda, the latter owner of the building in which one of the restaurants is operating, the two men favoring them.

Both the boxer and Higgins and Leland Korda, the latter owner of the building in which one of the restaurants is operating, the two men favoring them.

*Part One of the Famous Brady War Photograph
folios Are Ready For You at The Times Office*

Every reader of the Times may share in this exceptional opportunity. We have secured the exclusive rights in this city to the most famous series of Civil War Photographs ever made. The original pictures cost untold privation and danger. Their publication cost hundreds of thousands of dollars. Yet here is the wonderful and beautiful series placed in your hands through the enterprise of The Times practically free. But don't delay. Our supply is limited.

Who Brady Was and What He Did One of the Strangest Adventures of the Civil War

The First Photographs of War

One of the most interesting stories of the Civil War is that of Matthew Brady, the first photographer to follow the events of any war with his camera. Brady was a famous New York artist, whose studios were thronged by the fashionable and prominent folk of the whole country, in the fifties and sixties. But when the call to arms came, the excitement of the tremendous conflict was too much for him, and he turned his back upon a life of ease and opulence for one of privation and danger at the front. And for what? For the privilege of being the first man to take pictures of actual war. The camera had been perfected only a few years previously, and seeing the enormous and unique value to history such a series of pictures would possess, he placed his precious camera upon a light wagon, entered the enemy's country in the days of '61, and during the succeeding months braved every form of death, by bullet, hunger, or disease, that he might record pictorially the progress of the war, day by day. How well he succeeded a grateful nation is at last recognizing. His wonderful pictures, lost for many years and only recently discovered, are a national monument to the genius and courage of a remarkable man.

The U. S. War Department Co-operates

When the main part of the Brady pictures, at last came to light, it was seen that these wonderful views were incomplete. Here and there gaps were discovered which indicated that there must be more pictures somewhere else. The War Department at Washington was appealed to, and a search among its archives revealed the missing scenes and portraits. They were the ones which had been taken over from the photographer at the close of the war. The government officials were also quick to realize the importance of uniting the two collections, and gave their consent to reproducing the negatives in their possession. The entire series made possible by the aid of the War Department, and also drawing upon invaluable private data in all parts of the country is at once the most authentic and only direct story told more truthfully than any mere eyewitness, for the camera is absolutely impartial. Not only does each individual picture in the collection is the fact that every picture has been identified, and now bears a full description of the scene or the principals with which it is concerned. These are the only war scenes which have this absolutely indispensable feature.

The Civil War THROUGH THE CAMERA

A Profusely Illustrated History—In Sixteen Parts

CONTENTS OF PART ONE

PART ONE deals with the outbreak of hostilities and the Battle of Bull Run. Professor Elson's story gives the reader all the essential facts in a vivid way.

For illustrations, there is a beautiful colored plate, The Battle of Bull Run; and the following war-time scenes reproduced directly from the rare photographs: Views of Fort Sumter and its Commander. Fort Sumter after the Bombardment. Its appearance while in the Hands of the Confederates. A War-Time Mass-Meeting

in New York Pledging Support to the Union. The Cabinet of President Jefferson Davis. General McDowell, the Defender of Washington. General P. G. T. Beauregard, the Southerner of the Hour in '61. The Minnesota Volunteer Regiment that fought at Bull Run. Mrs. Greenhow, the Confederate Spy, who sent the News of McDowell's advance to Beauregard. Union Troops from Rhode Island, New York, New Jersey, Pennsylvania and Vermont. Scenes of Bull Run Battlefield. Prisoners of the Confederacy in Castle Pinckney, Charleston Harbor.

Yours For Only Ten Cents—if You are Prompt

All you need to do is to cut out this coupon and bring or send it to the TIMES office, with TEN CENTS to cover necessary expenses, such as cost of material, handling, clerk hire, etc., and the portfolio will be sent to you by mail for three cents extra. There are no other conditions whatever, but as the demand will undoubtedly be enormous we cannot guarantee a copy to late-comers. We advise you to send in your order at once.

Sixteen Parts Every Part A Full Story In Itself

Another new and striking feature of this History is the way it is told. Every part is complete in itself. You don't have to keep in your head anything that went before. Each part tells the full, entire story of a whole battle—beginning to end.

You enter into the hopes and fears of the grim generals, lined up for the fight.

You learn what forces they had, what brought on the struggle.

Then comes the clash of the cheering lines. Victory swings to and fro amid the clang and crash and smoke of battle, until the ground is strewn with dead (you can see them in the accompanying photographs, just as they fell.)

Another grand chapter in history is writ with blood.

And you know the meaning of the words Corinth—Cedar Mountain—Fredericksburg—Gettysburg—Appomattox!

What the New History Is Like

Like the photographs,—the text of THE CIVIL WAR THROUGH THE CAMERA is inspiring.

It is absolutely different from any of the old histories you have been used to.

It is the history you want—and want your children to know!

It is as interesting as it is educational—as readable as it is impartial.

Both sides have had their say—have agreed what was fair—and have seen it written here by the masterly United States historian, Professor Henry W. Elson, of Ohio University.

This history is new—different from the old-fashioned school books on the war. They represented one side or the other. This represents United America—and its pride in the bravery of Blue and Gray alike!

Cities and Towns of Los Angeles County.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

SEVERAL MORE ELECTIONS DUE.

Crown City Gets the Habit of Casting Ballots.

Countess Parties Here After Tonic Experience.

Gigantic Lens Being Built to View the Sun.

PARADISE, May 16.—Another election is but nine days away, and there is uncertainty as to what will follow quickly on its heels. Ballots will be cast at the charter amendment meeting, which centers about the revision of liquor regulation, on the 24th next.

LOS ANGELES, May 16.—Official members of the Mountain Club and the City Water Commissioners are laying plans for a water-motored car. It has been suggested it taken a spring election or municipal ownership of water will make the third.

A number of informal conferences have been held, other meetings are planned for the dates in the near future and it is expected that will probably be held within a very short time, according to Mayor Tom Bradley. The question of the proposed use of Owens River will be one of its chief points.

MAYOR THINKS AND MEMBERS OF THE CITY PLANNING COMMISSION HAVE POSTED THEM PROPOSED TRIP OVER THE ANGELUS RIVER. THEY HAD TO WAIT BUT CONSIDERATE MAKING THE JOURNEY WITHIN A SHORT TIME.

While the proposed water electric power plant is referred to as a "bold move," there is a possibility that it will be called soon. The time for this election is one of the major issues under discussion.

WRECK SURVIVOR ARRIVED.

The survivors of Rothes, who is one of the survivors of the Titanic wreck, arrived yesterday from New York by the steamer "Pomona" to see her husband, the Earl of Rothes, who met her in New York.

The saved couple came over the ocean on the "Pomona" at 3 o'clock in the afternoon. The Countess wore a slate blue dress and stepped from the train with a springing step. She smilingly made for the home of Mr. and Mrs. C. H. M. Crichton, in Altadena, where she and the Earl are guests.

I am glad to get to beautiful California again. I can rest in the sun and have a good time. I am trying experiments," she said. "All this is so pleasant after what we encountered on the cold, sea-shanty ship. The mailings made for me while in the house of Mr. and Mrs. Crichton, in Altadena, were whistled in from the house of Mr. and Mrs. C. H. M. Crichton, in Altadena, where she and the Earl are guests.

Ward was not on duty at the time he having started with the week to enjoy a spring vacation. Harding, who formerly resided at Bakergrove, is living at No. 1885 Sunset beach, where the shooting occurred. He was not at home last night but seems to have returned at an early morning hour.

Neither Mrs. Harding nor the police department have any statements to make in connection with the affair.

TRY, TRY AGAIN.

Another endeavor to win by carrying the case on appeal to a higher court, the City Council will seek to accomplish the widening of Oceanfront promenade by beginning anew the condemnation proceedings which were recently knocked askew in the Superior Court on a demurser that had been interposed by frontage property owners. The Council last night ordered the City Attorney to take immediate new proceedings.

One of the most vigorous of the opponents of the scheme is Mr. Ollie Queen, who owns considerable frontage at the point where the city desires to widen the sidewalk. She proposed to donate her frontage to the city provided she be permitted to retain the disputed strip, but the arcade plan was not given serious consideration.

THE YEAR.

The 1912 banquet of the Pasadena Board of Trade, which will take place tonight at the Hotel Maryland, will be the most important event of the year, or its kind. An attendance of large numbers of former and present business leaders will be present.

The speakers are former Senator Frank P. Flint, J. A. Graves and Frank Tyrell of Los Angeles. Dr. Frank Willis, who will preside as Master of Ceremonies. A large committee was appointed yesterday.

PUT OFF AGAIN.

The solution of the South Orange Grove Avenue paving controversy met with still another postponement when the City Council convened yesterday.

The Barber Asphalt Company, which did the work, asked that the appeal of property owners, who claim that the pavement is not up to the standard, be decided in all particular cases before proceeding to lay out a surface roadway. It also requested that a Council Committee be appointed to determine what shall be done toward repairing the pavement in repair.

The Councilmen discussed the matter and then postponed action.

Councilman Charles thought that the present warm weather would afford a good opportunity of smoothing out the difficulties that have been complained of.

Property-owners on North Moreno Avenue yesterday appeared before the Council to protest the proposed extension of the asphaltic road to the corner of Moreno and North Moreno, and the claim was set up that the establishment of a hospital, as proposed, will make homes in the proposed neighborhood undesirable.

The matter was referred to the Committee on Institutions.

John MacDonald and William Mathews asked for a thirty-year franchise, for a double-track electric railway, and the proposal was referred to the City Attorney.

WILL SPEAK HERE.

Clara W. Hetherington of Chicago, who represents the Joseph Fels detergent in play and educational advertising in Pasadena, had a short visit and will make several addresses. She is scheduled to speak at 4 o'clock this afternoon to school teachers at the Pasadena High School and at 9:30 o'clock tomorrow morning at the Fels' Miss Christian Association building.

AUTOBOMBE IS BURNED.

A motor and an automobile that was within 15 ft. of the residence of W. H. Murdoch, corner of Marathon Road and Santa Rosa Avenue, Alta Loma, exploded to bits this morning last Friday night. The gasoline tank in the car and a larger one in the building exploded and caused flames to leap high into the air, attracting so much attention that a large crowd

DIES OF PARALYSIS.

Just as the election officers at Precinct No. 5, in the northeastern part of the city were closing the polls last night, Mrs. Triphina Walker, who lived on the same lot as the polling

New Financial Institution Meets With Great Success.

Wedding Gifts of Unusual Silver

Because of its beauty, its lifelong service, and its universal usefulness—a wedding gift of distinctive silver is always sure of the utmost appreciation.

Brock & Company's Department of Silver is right now at the very zenith of its interest—many entirely new and unusual creations being shown for the first time in Los Angeles.

An idea of the unequalled comprehensiveness of our display of silver may be gained from the fact that we show thirteen distinct and complete patterns in sterling silver flatware, representing the most distinguished productions of the silversmith's art.

An important feature of our silver—from the standpoint of giftiness—is the fact that all our silver productions are of the English standard of fineness, 925-1000 pure—and many of the patterns we show are absolutely exclusive with this house.

We cordially welcome you to come to our store for wedding gift suggestions. You will find here many exceedingly clever ideas not to be seen elsewhere in Los Angeles.

Los Angeles is Building SOUTHWEST

BUILD A BUNGALOW HOME

Every man should own a home of his own. This is true everywhere. It is more true in Los Angeles and its immediate vicinity than anywhere else in the wide world, for this is one place where we all want to settle in and stay once we locate here. Again, this is one place where we want to stretch our limbs and breathe the glad fresh air in our own front porch. Los Angeles may well be called the Chosen Spot.

Arlington Square is the Chosen Spot of the Southwest.

The southwestern portion of the city is so rapidly developing, that it must be acknowledged in one direction in which are located the very best investment opportunities.

FULL BOX SCORES OF BIG LEAGUE GAMES PAGE 2.

Our old friend, Charles Van Loon, is batting 1000 in the literary league. He has certainly knocked a home run with his new book, "The Ten Thousand Dollar Arm," a collection of raps on the game.

All of Van's earlier stories showed brilliant promise, for he has the God-given gift of the real story teller. But the little crudities of some of his first efforts seem to be found in the "Arm." All these latter stories have the grace and ease of the finished effort. Some of them have the crack of Kipling.

To the author because I am in bad with the author because I am in bad with the story about the old umpire the finest in the book; he says it's the worst. But what does an author know about baseball? I am the public—→ named things!

The name of the book is taken from one of the stories whose hero is obviously old. Theodore Breitenstein, a New Orleans man, Van has dedicated the book to. In the stories Frank Dillon, "who has many young players to the big leagues, but has never found a better first base," is mentioned.

The illustrations in Van's book are as rotten as the stories are good. I don't know who Wallace Goldsmith is, but he ought to be driving mules instead of writing an innocent publication with his dreadful drawings. I tore all the pictures out of my copy of the book; but the memory of them keeps me awake nights.

Local Money.
The Santa Monica boosters need not waste any long hours pacing the floor trying to find out how to bring another automobile race to the Palisades grounds. It will be a matter of money. The men who are driving these auto races are world famous, like prize fight champions and big league pitchers. They were hypnotized into coming out here this year to race for the price of a pack of cigarettes. But they won't come again unless a real prize is put up. The Santa Monica people must "come through."

Whale Couldn't Fly.
This is a very sad case. In the height of his career, Happy Hogan was taken with a touch of the sun, and no one can say an account for his presenting "Admirable" game of McCreath.

Poor old Jimmie Whalen has ceased to be the whale; he is in the sand bath now, as a pitcher. He literally gives away a perfectly good game to Portland. His work was so full and so fearful that Happy refused to send any one to take his place, his hit so hard in the first inning that it had been a waste of good pitching to try to pull the game out of the hole.

Frosty Tough.
It was rather pathetic, at that, to see the old Washington Chinaman walking out to the dugout at the beginning of each inning, amply kicking at his old stove—a human sacrifice.

Then to see the Beavers go grinning and chuckling to the bat and wallop the paint off the back fence.

Don't Shame Him.

The spectacle of Ty Cobb jumping into the grand stand in New York yesterday, and drumming a spectator, shows that there has been some stiff stuff in the East. It appears that the fanatic applied "apropos epithets" to Cobb and whatever these were, they are enough to get any ball player's goat.

What Mac Was Once.

"McCreath was once one of the world players in the East," said a Vernon player yesterday in talking of the Beavers leader. "One day in the course of his career he got a small 'whit' broom out of the ump's pocket and shoved the thing down the ump's throat. Guess that wasn't quite on some more bad decisions. Then we don't stand for that of that rough work in this league now."

Some Softness Now.

Guess Charlie Stewart has a snap these days, sitting in the grand stand and thinking of the many hot bats he played third base for the Los Angeles team. He has a big business that makes him a better monomer and he sits in the shade and looking out at the umps fighting the players, laughs and laughs and laughs.

Some Mac de Mer.

Frank Peato, just back from Australia, says Ad Wolgast had best stay from the big island, for the only lightweight on there weighs 142 pounds. After his experience with Kitchie no wonder Ad is in his "stummie" every time he looks at the ocean.

Money Old Hap.

The fact that Harry Stewart has "suspended" by the Vernon team does not mean that he will have to spend the balance of his life pitching hay. It would be a very easy matter for a smart manager like Hogan to make him a useful sometime, but it's a shame that he has to scratch at that. Some of the guys that road him have not but they don't know it.

Out for first practice. Upper picture shows the quid which answered the master call yesterday. Lower shows Halfback Albers throwing ball in on line-out formation. Schwartz, Dougher and Cummings after the blower.

On the Job.

"TIMES" AUTO STARTS EAST.

Ocean-to-Ocean Route Car Hits Long Trail.

Highway Association Boosts Great Project.

Will Forge Links of Great Road En Route.

BY REXY G. SMITH.

With every city along the proposed ocean-to-ocean route through the San Joaquin Valley organized, The Times car left this city yesterday on its journey to the desert to Tumac. The Banning route, chosen by the Phoenix roadsmen convention, is to be followed and the Colorado River will be crossed. A big reception is promised at Tumac. Dr. Keecherville is in charge there.

Divisions of Ocean-to-Ocean highway in every town of the Southwest and in many towns of the Northwest are being formed. The last link was forged at Brawley. Now it remains for The Times car to enter larger fields and the long journey, which is to end on the Great White Way in New York, was started yesterday morning.

MITCHELL ORGANIZING.

John S. Mitchell, president of the ocean-to-ocean highway, left with the car, prepared to organize Arizona and New Mexico. He has determined to form a committee in each town of the new state to meet the men of the Auto Fe's trail. He is accompanied by Dell M. Potter, vice-president of the Ocean-to-Ocean Highway Association, who is the national organizer, and who will make the entire journey in the car.

Ten thousand members of the Ocean-to-Ocean Highway Association, is the record already scored by the new organization, and the car is to make a triumphant tour through the Southwest, which will be a great success.

The highway buttons, emblems of the organization, are being worn by thousands, and the car is to make a grand tour through the Southwest, the men of Tumac are to be given a dance to welcome President Mitchell and National Organizer Potter.

The trip is a strenuous one. The desert, sand and being conquered, however. The forces will be recruited by the good roads body has done yeoman service. The Whitewater River is no longer a nightmare. The road is in good shape and is now being driven on the high way from Indio to Mecca.

STRENUOUS UNDERTAKING.

From Mecca to Brawley much work has already been accomplished, and

LOS ANGELES TO BE SUMMER CENTER OF FIGHT WORLD.

DURING the summer months, Los Angeles will be the fight center of the world, as the following schedule will show. These battles are already arranged or are in the wind.

June 8—Jack White vs. Owen Moran, 30 rounds, 128 pounds at 10 o'clock a.m.

July 4—Ad Wolgast vs. Joe Rivers, 20 rounds, 132 pounds ring-side; lightweight championship of the world.

If Wolgast is unable to fight on July 4, Rivers will be sent against Joe Mandot, on the same date.

July 20—Sam Langford vs. Joe Jeannette, 20 rounds.

In August, winner of Moran-White fight will be sent in with winner of Rivers-Mandot fight, if Wolgast is still unable to defend his title.

In September Abe Attell and Johnny Kilbane will meet again over the twenty-round course, and then Jack White will be given a chance at the winner at 128 pounds at 10 o'clock a.m.

During the month of August, Wolgast will be sent to action providing he is unable to get into condition for the fight on July 4, but if he is able to work on that date the other matches will be arranged for two August dates.

Willie Ritchie will be given a chance with Rivers, Mandot, Moran or White, after the July 4 date, according to who wins out in the series at present scheduled.

Real Sluggers.

DEEP HARPOONS FOR CHIMMIE.

Der Whale Stung Hard During Every Innings.

Harkness Has No Trouble in Holding the Tigers.

BY GREY OLIVER.

Portland, 12; Vernon, 1. Charming the Whale got a tough victory.

As a matter of fact, he got something worse than that, for the Beavers gave him one of the worst beatings he ever had in all the years he has pitched in the league. They made no less than five runs off him in the first inning, but as all of them can be charged to Hargrave, the Whale is really not to blame for them.

All of them rolled in after two were out and almost the same thing happened in the seventh for with two out Doane clammed up and ergo Lindsay doubled against the outer fence. Howley, Mr. T. T. Morris double back of short and Hargrave sent a hot single to center. Three runs arrived on them.

Do you call this baseball?

Nix for its nothing. We needed

And the Beavers harpooned their whale to a finish. Rightian Newell included two triplets and Ruth. Do you suppose that half finger could get by that whale?

Not.

And the Whale did not even realize he could not for Hargrave, who bounces, instead of trying to stop it with his knee, would not have scored. However, as the Beavers were about nine miles ahead, this made no difference.

He was a fine pitcher, but there was no team behind him and fast double plays and practically errorless ball, made his work easy. Even after Kane had sent a triple to right in the first inning with one out, he did not score, but he was allowed to hit into a double play, which shows what kind of fielding the Tigers were against.

The big fielding star of the day was Eddie Kautz, and both were with the real stars. There were two beautiful running catches, while Lindsay grabbed Bradshaw's low liner in the first inning with his left hand, stepping on third base, doubled Kautz, and the last home run was a lucky shot, but it did the business.

Of the ball killers, Bancroft led all the rest with two doubles and two

TROJANS MAKE HISTORY IN SPRING RUGBY WORK.

BY OWEN R. BIRD.

The first intercollegiate spring Rugby practice ever held in the south was staged yesterday afternoon at the University of Southern California, when Coach Manning and Capt. "Smoke" Adamson sounded the master call. Thirty men answered, and, as a result, some of the best players ever held here were pulled off, and now coach, captain and Manager Bowden are tickled to death.

The Trojans are young after the new game with a vim and fire to land them near the top next fall in the clashes with Stanford, Berkeley and the Northern Indiana.

Capt. Adamson said yesterday:

"The English game has come to stay on the Coast, and the local university is to catch up and get on the same level with the big fellows in the north."

Old Guard Out.

All the old guard was out for the early training, and looked fat at that, but the rays of the heat-and-sun-

sun will be in condition before the commencement bell is rung, and then,

with only a little care during the summer vacation, they should be fine fighting trim for the fall bat-

tle.

Fast Work.

At 5 o'clock thirty men were on

the field in the forenoon light. Rugby suits, and were soon passing, kicking, and running with猛力 in

the hot sunshine. After twenty minutes of fast work a bright spirit of optimism spread over the campus and the field, as the material shaped up to the hand of the coach.

On the hand of the coach.

Of the old heads out, Schwartz,

Wright, Nisius and Hollingsworth

were doing great work, and were

made with the showing of speed

Made by the men.

(Continued on Second Page.)

MIKE DONLIN'S BUNGLE CAUSES PIRATES' DEFEAT.

Former Giant Player Gives Victory to His Old Team.
Mates—Single by Snodgrass Scores Winning Run.
Willis Makes Monkeys Out of Brooklyn Team in Four Hit Game.

THIS FROM WIRELESS, CABLE, EASTERN AND OVERLAND NEWS SERVICE:

NEW YORK, May 15.—In a non-national game today the Monarchs beat Pittsburgh by the score of 4 to 2. Ruth Myers and Wilson piled out home runs and Morris and Morris hit triples. At that, a costly error of Mike Donlin in the eighth inning cost the Red Sox a victory run, to be added to the dozen. Morris batted .360 and Donlin .350. When Donlin reached the ball, Little Harry snatched around from the initial catch to the plate. Score: NEW YORK.

Hit by pitcher—By WILHELMUS, L. (Dunham, Smith and Johnson).

KELVEIN INNING-GAME BEATS WINNERS.

THE THREE WINNERS, CABLE, EASTERN AND OVERLAND NEWS SERVICE:

CINCINNATI, May 15.—In a red-letter inning-game the Reds took another game from Boston today. Not an error was charged to either side through the session.

COURT DENIES I.W.W. REDRESS.

Charges Collusion With Vigilantes.

John of Columbus Busy in Annual Meeting.

Attorneys to the Tenth Circuit Court have received notice that the trial of the case will be held at Old Town by the Superior Court.

Firebug Burns Palms Along Beautiful Driveway.

P. E. O. Sisterhood Holding Ninth Annual Convention With One Hundred Women Present—Morning Paper Changes to Evening Because of City Doctor's Competition.

RIVERSIDE. May 15.—The contract for the three-story addition to the Raynolds Hotel was let today to the Grand Manufacturing Company of this city. The structure will cost about \$50,000. Other contracts let in connection were as follows: Potter & Knight, Riverside, plumbing; Riverside Electric Company, electrical work; Otis Elevator Company, passenger and freight elevators.

The plans were prepared by Architects John F. Krempe and W. H. Baker of Los Angeles. In accordance with the terms worked out by Mr. Leland Reynolds, the addition will have dimensions of 58x145 feet, and will contain a lobby 37x23 feet, with inglenook and large fireplaces. There will be thirty additional guest rooms and eighteen bathrooms.

LINE FENCE SQUARER.

George Owens has a homestead in Cajon Pass, which borders the Clapp ranch. The owner of the ranch has written a letter to the State Land Commission asking him to be allowed to enter his property or get into a small canyon to develop water. He has appealed to the District Attorney and will retain Attorney C. C. Haskell to enjoy the services from obstructing his right of way.

SUIT COMPROMISED.

The city's chemical engine was summoned to the head of Magnolia avenue this afternoon to extinguish a fire set in two palm trees. For reasons not known, the trees had been set with a match for burning the beautiful palms which line many of Riverside's driveways, has ruined the appearance of many fine trees by setting them afire. In some instances, three fires have melted the telephone cables. No one has ever been secured of the perpetrators.

STATE CONVENTION OPENS.

The ninth annual convention of the California Grand Chapter of the P. E. O. Sisterhood opened with a luncheon today at the First Methodist Church. The convention was called by Mrs. Anna M. Johnson, president, Mrs. Addie A. Norton, presiding. The delegates, numbering about 150, were entertained this evening at a formal banquet. The meetings will continue through Thursday and Friday.

ANNOUNCEMENT was made today of the purpose of the Riverside Morning News to enter the newspaper field. The change is expected to be effected within a week or ten days. Among the reasons impelling this move is the fact that the Los Angeles morning paper prove pretty strong competition in the morning field.

THE COST OF SMOKE.

The Annual Loss for Unconsumed Carbon in Chicago Alone Is Given as Thirty-Eight Million Dollars. (Chicago Daily News): According to estimates made by Edward McVay of Chicago, the cost of the community of permitting the continuation of the smoke nuisance is as much each year as the total tax levy for public purposes, which is given as \$10,000,000. It is observed that a big hotel in Chicago loses more in the course of a year through injury of its lace curtains by smoke than it pays in taxes for that year. Department of Commerce reports heavy losses in goods from the same cause.

More estimates of the injury wrought by smoke are frequently picturesque, such as that continuing. However, it cannot be denied that the damage is great. It is not right that the property of the many should be thus sacrificed because the few refuse to take the necessary steps to put an end to an injurious nuisance.

The most important products are the railroads. That nuisance can be entirely eliminated by terminal electrification. That it will be so eliminated is now a certainty. In New York, as elsewhere, electrification of its railroad terminals Berlin and Paris have recently taken official steps in the same direction.

SYNDICALISM.

A Method Adopted in France for Uniting the Working Classes Against the Established Institutions. (Philadelphia Public Ledger): A "syndicalism" has grown to have a minister sound in the ears of law-abiding folk for its open defiance of the law. Those which have served chiefly to attract public attention, have been closely allied with revolutionary demonstrations against government and society. In France it has been found that the working classes and trade unions as a means of uniting the working classes in a war against the established institutions of the country and in England it has been recognized that the working classes, which struck a vital blow at the industrial prosperity of the nation, and at the employment by the government of troops for the protection of the mines and the maintenance of public order. As is often the case when abstract theories and doctrines are applied by the ignorant and the mischievous, the theory, as it is commonly understood, is confused in the popular mind with the means employed for securing wider realization.

Syndicalism, then, is but one of the means by which socialistic ideals seek to establish themselves. It looks to group ownership by each trade of its own materials and products. The syndicalists, as applied to coal mining, would mean, in theory, that the workers in the mine should be the owners of the mine, and that the products of the labor should be their own. This is nothing immoral or economically undesirable in such an ideal, but the mischief comes from the methods which have been adopted for its attainment.

GOVERNMENT'S SUIT AGAINST RAILROAD BUTTER.

Mixed Argument Over Memoranda in Possession of Witness Who Wouldn't Attend Until Subpoena—Defense Ascertains Elk Hills Oil Unrecoverable.

The tense feeling that has characterized the examination of witnesses in the suit brought by the Federal Government against the Southern Pacific Railroad Company, to recover \$2000 acres of alleged mineral land in Kern county in the Elk Hills broke out unrestrained yesterday afternoon. The opposing attorneys, Willis N. Mills, representing the government, and C. R. Lewers, who appeared for the defendant corporation, came near to the point when the matter of defense might have been appealed to make "white hope."

Attorney Lewers characterized the conduct of Mills as unprofessional and prejudicial—a high-handed attempt to secure evidence—while special Atty.-Gen. Mills contended that the witness involved had refused to attend the witness stand on the court's insistence, and was compelled to be a subpoena, and the government did not intend to examine him until there was some knowledge of what the papers and memoranda in his possession contained.

The person referred to is Charles W. Ellerino, of Humboldt, former land agent of the Southern Pacific. He brought with him an armful of papers and documents bearing at the time of his appearance at the trial in the Elk Hills land was presented to the railroad.

When Ellerino had been sworn, Mills asked for an adjournment until, to give him an opportunity to look over the documents before their presentation. He said the witness had only come after he had been compelled to do so, and the government had no knowledge of what the papers contained.

Attorney Lewers attacked what he called the high-handed methods of the government and demanded that the examination proceed.

Special Commissioner Longley was appealed to and agreed to adjourn the suit until today, but he declared that he had no judicial authority to rule on the motion of the government, and adjournment was taken by general consent.

After the adjournment of the suit, the defense became bitter in the expression of his opinion, saying that he had not been treated right by either side. He had come to testify and wanted to do so, he said. He asserted that the Pacific had had an opportunity to get the papers he proposed to offer in evidence.

Mills said he had no idea what the memoranda was, but he refused to go into the case until he had read the documents.

During the argument, both attorneys became angry, and the situation seemed strained, but the better nature, of both men triumphed, and when attorney Ellerino was finally taken off the stand he had passed.

On re-direct examination, Expert A. C. Westcott, on behalf of the government testified that in 1910, the Land Classification Board of the United States Geological Survey, of which he was then chairman, prepared a bulletin declaring that the entire territory covered by the present suit in the Elk Hills is of a mineral character and oil-bearing. At that time the government's examinations had been presented to the Southern Pacific and the sections so reported were the even sections.

The maps of the even-numbered sections in the territory, filed on by the Right Oil Company, Bakerfield, for the purpose of prospecting streets at about twenty miles as the crow flies.

for Fuller's earth were made a part of the government exhibit. It transpired that all of the land, including that set apart for the benefit of the Indians, was excluded from entry by the government for the cancellation of patents to the Elk Hills lands, as so far the evidence had shown that the oil was recoverable in twenty-eight holes in the ground, sunk by prospectors, two are furnishing oil, one twenty-five and the other forty barrels a day, while investments in wells will be about \$4000 feet cannot be paying investments, and the output is in excess of 200 barrels a day.

The statement was made by C. R. Lewers, representing the Southern Pacific, that but for the bearing the ten millions of the oil production of the Elk Hills lands, the oil could not be recovered.
